WPCS INTERNATIONAL, INC. AND SUBSIDIARY
(FORMERLY PHOENIX STAR VENTURES, INC.)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements of WPCS International, Inc. and Subsidiary (collectively, the "Company") have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC") for quarterly reports on Form 10-QSB and do not include all of the information and footnote disclosures required by accounting principles generally accepted in the United States of America. Accordingly, the financial statements should be read in conjunction with our audited consolidated financial statements and notes thereto for the fiscal year ended April 30, 2002 and the unaudited proforma information, included in the Company's report on Form 8-K originally filed on May 24, 2002 and amended 8-K/A dated August 6, 2002 previously filed with the SEC. The accompanying unaudited condensed consolidated financial statements reflect all adjustments (consisting of normal recurring accruals), which are, in the opinion of the management, considered necessary for a fair presentation of financial position and results of operations for the interim periods. Operating results for the three and six-month periods ended October 31, 2002 are not necessarily indicative of the results that may be expected for the fiscal year ending April 30, 2003.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

WPCS International, Inc. is the successor-consolidated entity formed by the

merger, on May 17, 2002, of Phoenix Star Ventures, Inc. ("PSVI"), WPCS Acquisition Corp., a newly formed, wholly owned subsidiary of PSVI ("Subsidiary") and WPCS Holdings Inc., a Delaware corporation ("WPCS").

On May 17, 2002, pursuant to the agreement and plan of merger, PSVI a publicly held "shell company", became the legal acquirer of WPCS by issuing 5,500,000 shares of its common stock to the shareholders of WPCS in exchange for all of the outstanding common shares of WPCS. The former shareholders of WPCS, immediately after the business combination, owned the majority of the combined companies. Accordingly, the business combination has been accounted for as a reverse acquisition, whereby, for accounting purposes, WPCS is the accounting acquirer and PSVI is the accounting acquiree. The unaudited condensed consolidated financial statements of the Company include the accounts of PSVI since its acquisition. The cost of the acquisition approximated the fair value of the net assets of PSVI that were acquired, and accordingly, assets, liabilities and the outstanding preferred stocks of PSVI were initially recorded at historical carrying values.

On May 24, 2002, as a condition to the plan and merger agreement, PSVI's principal shareholder returned 500,000 shares of its common stock to the Company, without compensation. Subsequently, these common shares were retired and cancelled.

WPCS did not commence operations until November 15, 2001 and, accordingly, results of operations for the three and six months ended October 31, 2001 and cash flows for the six months ended October 31, 2001 have not been presented.

10

WPCS INTERNATIONAL, INC. AND SUBSIDIARY
(FORMERLY PHOENIX STAR VENTURES, INC.)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Nature of business

The Company provides fixed wireless solutions, including engineering, deployment and installation relating to voice-data-video transmission between two or more points without the utilization of a landline infrastructure to businesses and governmental institutions.

Principles of consolidation

The accompanying condensed consolidated financial statements include the accounts of the Company and its wholly owned Subsidiary. All significant intercompany transactions and balances have been eliminated in consolidation.

Cash and Cash Equivalents

Cash and cash equivalents include all cash and highly liquid investments with a maturity of six months or less at the date of acquisition.

Revenue recognition

Revenue consists of sales of wireless solutions and their deployment. Equipment sales are recognized when delivered and maintenance revenues are recognized when services are provided.

Inventory

Inventory consists of parts and supplies and is stated using the weighted average cost method.

Property and equipment

Property and equipment are recorded at cost less accumulated depreciation, which is provided on the straight-line basis over the estimated useful lives of 5 to 7 years. Expenditures for maintenance and repairs are expensed as incurred.

11

WPCS INTERNATIONAL, INC. AND SUBSIDIARY
(FORMERLY PHOENIX STAR VENTURES, INC.)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 3 - NET LOSS PER COMMON SHARE

Loss per common share is computed pursuant to Financial Accounting Standards Board Statement of Financial Accounting Standards No. 128, "Earnings Per Share" ("EPS"). Basic income (loss) per share is computed as net income (loss) available to common shareholders divided by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur from common stock issuable through stock based compensation including stock options, restrictive stock awards, warrants and other convertible securities. At October 31, 2002, the Company had 11,111 stock options outstanding. Diluted EPS is not presented since the effect of the assumed exercise of options and the assumed conversion of the Series B convertible preferred stock would be antidilutive.

NOTE 4 - SHAREHOLDERS' EQUITY

Preferred Stock

Series B Convertible Preferred Stock

On May 15, 2002, the Board of Directors of the Company adopted and created a series of preferred stock consisting of 1,000 shares designated as Series B Convertible Preferred Stock ("Preferred Stock"). Each share of Preferred Stock has a liquidation preference of \$1,000 and does not accrue any dividends. The Preferred Stock is convertible into the Company's common stock, at the option of the holder, at any time after the 30th calendar day the Company receives payment in full. Each share of preferred stock is convertible at a basis of \$1,000 per share at a conversion price equal to 75% of the average market price of the common stock for ten days prior to the date of conversion. Among other provisions, the number of shares issuable upon conversion may not be less than 1,000 shares or greater than 4,000 shares of common stock.

In addition, the Company may repurchase the outstanding Series B Convertible Preferred Stock within one year following the date on which the Company received payment in full for the Preferred Stock at a price of \$1,200 per share.

12

WPCS INTERNATIONAL, INC. AND SUBSIDIARY
(FORMERLY PHOENIX STAR VENTURES, INC.)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Through October 31, 2002, the Company sold 455 shares of Preferred Stock through a private placement and received proceeds of \$455,000 and issued 64 shares to a shareholder of the Company as payment for advances from shareholder and accounts payable totaling \$64,000.

Based on the conversion price of 75% of market value, the Company recorded a beneficial conversion feature of \$173,000 for the 519 Series B preferred shares issued as an imputed preferred stock dividend.

Common Stock

On May 23, 2002, all of the 250 shares of Series A preferred stock, which had been issued by PSVI prior to the reverse acquisition, were converted into 3,000,000 shares of the Company's common stock.

NOTE 5 - SUBSEQUENT EVENTS

On November 13, 2002, the Company entered into an agreement and completed a merger with Invisinet Acquisitions Inc., a wholly owned subsidiary of the Company, and Invisinet, Inc., an unrelated Delaware corporation. Pursuant to the terms of the Agreement and Plan of Merger, Invisinet Acquisitions, Inc. acquired 100% of the common stock of Invisinet, Inc., by issuing 1,000,000 shares of the Company's common stock with a fair value of \$1,750,000, based on the value of the Company's common stock as of that date. Based on the net assets acquired of Invisinet, Inc., the Company will recognize goodwill of approximately \$1,600,000 (unaudited). Subsequently, Invisinet Acquisitions Inc. was merged into Invisinet, Inc. with Invisinet, Inc. being the surviving company. Invisinet, Inc. is in the same business as the Company, providing fixed wireless technology solutions to its customers.

Item 2. Management's Discussion and Analysis

The following discussion should be read in conjunction with the consolidated financial statements and notes thereto set forth in Item 1 of this Quarterly Report. In addition to historical information, this discussion and analysis contains forward-looking statements that involve risks, uncertainties and assumptions, which could cause actual results to differ materially from Management's expectations. Factors that could cause differences include, but are not limited to, expected market demand for the Company's products, fluctuations in pricing for products distributed by the Company and products offered by competitors, as well as general conditions of the telecommunications marketplace.

Overview

WPCS International, Inc. focuses on the implementation requirements of fixed wireless technology. Significant advances in wireless communications has created fixed wireless high bandwidth solutions that are cost effective. Today, a company can connect their data network and PBX system internally or between locations by using a fixed wireless solution. Depending on the requirements, fixed wireless solutions can be used from T1 to gigabit bandwidth rates and can travel distances of over fifty miles.

We provide complete fixed wireless solutions including best of breed wireless products, engineering services and deployment. We define fixed wireless deployment as the internal and external design and installation of a fixed wireless solution to support voice/data/video transmission between two or more points without the utilization of landline infrastructure. We generate our revenues from product sales and services. There are multiple products associated with the deployment of a fixed wireless solution including radios, repeaters, amplifiers, antennas, cabling and specialty components. There are also important services such as spectrum analysis, site surveys, site design, tower construction, mounting and alignment. The successful integration of all these products and services is critical in achieving the desired results for the customer. We offer the ability to integrate superior solutions from a multitude of vendors across the vast majority of communication requirements.

We continue to seek to expand our business by introducing new products and services for our customers. Starting August 2002, we began offering additional bandwidth services from AT&T and Sprint. The addition of these services allows us to provide complete bandwidth solutions from a wireless and landline perspective to commercial business and government accounts worldwide.

We continue to experience the challenging trends related to the economic slowdown in the telecommunications industry. However, we believe the growing trend towards cost effective wireless networks as an alternative to high cost landline services will continue to provide significant opportunities for us.

Significant Transactions and Events

On May 17, 2002, pursuant to the agreement and plan of merger, Phoenix Star Ventures Inc. ("PSVI"), a publicly held corporation, acquired WPCS Holdings Inc., a Delaware corporation ("WPCS") by issuing 5,500,000 shares of its common stock to shareholders of WPCS in exchange of all the outstanding shares of WPCS. Concurrently with the acquisition, PSVI, the parent company, changed its name to WPCS International, Inc. The shareholders of WPCS, after the acquisition, owned the majority of the combined company. Accordingly, the combination has been accounted for as a reverse acquisition, whereby, for accounting purposes, WPCS is the accounting acquirer and PSVI is the accounting acquiree.

On November 13, 2002, the Company entered into an agreement and completed a merger with Invisinet Acquisitions Inc., a wholly owned subsidiary of the Company, and Invisinet, Inc., an unrelated Delaware corporation. Pursuant to the terms of the Agreement and Plan of Merger, Invisinet Acquisitions, Inc. acquired 100% of the common stock of Invisinet, Inc., by issuing 1,000,000 shares of the Company's common stock with a fair value of \$1,750,000, based on the value of the Company's common stock as of that date. Based on the net assets acquired of Invisinet, Inc., the Company will recognize goodwill of approximately \$1,600,000 (unaudited). Subsequently, Invisinet Acquisitions Inc. was merged into Invisinet, Inc. with Invisinet, Inc. being the surviving company. Invisinet, Inc. is in the same business as the Company, providing fixed wireless technology solutions to its customers.

Results of Operations

WPCS's ongoing operations are that of its subsidiary, WPCS Incorporated. WPCS started business in December 2001. PSVI, the company acquired

by WPCS on May 17, 2002, was a development stage company and therefore had no material operations in 2001. For the purpose of this discussion, the results of operation for the six months ended October 31, 2002 include the operations of WPCS for the entire period and PSVI since May 17, 2002, as if the merger took place on May 1, 2002.

Operating Revenues

Net revenues include product and service revenues. Product revenue is derived primarily from sales of parts and components initially sold either separately or as part of a packaged fixed wireless installation. Revenues from products and from services are generally recorded when (i) persuasive evidence of an arrangement exists, (ii) delivery has occurred and customer acceptance requirements have been met, (iii) the price is fixed or negotiated, and (iv) the collection of payments is reasonably assured and we have no additional obligations.

Our customer base is generally Fortune 2000 companies and governmental institutions. Our principal revenue-generating customers are likely to vary on a quarterly basis. We anticipate that our revenues will expand through internal growth and acquisitions.

Net sales for the three and six months ended October 31, 2002 were approximately \$213,000 and \$606,000, respectively. The Company is pursuing additional sources of revenue to supplement its existing business. The additional sources of revenue can arise from acquisitions or internal growth. In that regards, the Company, on November 13, 2002, acquired a business in the same line of business as the Company by issuing its common stock. Management believes, but cannot assure, that this acquisition will substantially increase the revenues of the Company. In general, the Company intends to make additional acquisitions or expand into markets, which will leverage the Company's existing infrastructure. The Company has no present agreements or understandings with respect to specific acquisitions. There can be no assurance the Company will complete any such acquisitions or the terms of such acquisitions if they are completed.

Cost of Sales

Cost of sales consists of component and material costs, and direct labor cost payments to third party sub-contractors for its installation. The Company's gross margin varies from job to job. For the three and six months ended October 31, 2002, gross margin was 19.89% and 21.83%, respectively. We expect that the margins will increase as we increase our service business relative to other revenues.

15

Operating Expenses

Operating expenses are comprised of selling, general and administrative costs incurred in direct support of the business operations of the Company. Operating expenses for the three and six months ended October 31, 2002, were \$236,000 and \$426,000, respectively.

Selling expenses

Selling expenses include expenses incurred for travel and promotional activities. For the three and six months ended October 31, 2002, selling expenses were \$1,700 and \$7,000, respectively. We expect selling expenses to increase in the near future as we start to market our products and services in expanded markets.

General and administrative expenses

General and administrative expenses consist primarily of personnel and related costs for general corporate functions, including finance, accounting, strategic and business development, legal, human resources and administration.

For the three months ended October 31, 2002, general and administrative expenses were \$206,000. Included in the general and administrative expenses is \$36,000 paid to consultants for investor relations and \$65,000 in legal and accounting fees. Salaries, commissions and payroll taxes amounted to \$72,000 and rent for our office facilities amounted to \$8,000. Other general and administrative expenses amounted to \$25,000.

For the six months ended October 31, 2002, general and administrative expenses were \$390,000. Included in the general and administrative expenses is \$92,000 paid to consultants for investor relations, \$105,000 in legal and accounting fees in connection with the merger and other compliance issues. Salaries, commissions and payroll taxes amounted to \$142,000 and rent for our office facilities amounted to \$15,000. For the six months ended October 31, 2002, other general and administrative expenses amounted to \$36,000. We expect general and administrative expenses to increase as we expand our business.

Liquidity and capital resources

At October 31, 2002, we had working capital of \$143,000, which consisted of current assets of approximately \$218,000 and current liabilities of \$75,000. Current assets included \$79,000 in cash, \$131,000 in accounts receivable, \$6,000 in inventories and \$2,000 in prepaid expenses. Current liabilities included \$73,000 in accounts payable and accrued expenses and \$2,000 in current lease obligations.

We utilized \$373,000 in cash from operating activities during the six months ended October 31, 2002. This was mainly comprised of a \$294,000 loss generated for the six months ended October 31, 2002, a \$66,000 increase in accounts receivables and a \$43,000 decrease in accounts payable and accrued expenses.

The Company's financing activities generated cash of \$437,000 during the six months ended October 31, 2002. This was comprised of \$455,000 from proceeds of sale of Series B Preferred Stock sold to investors in a private placement, \$3,257 of cash received from PSVI on reverse acquisition, offset by \$22,000 in repayment of notes payable and principal on capital lease obligations.

16

Our capital requirements depend on numerous factors, including market for our products and services, the resources we devote to developing, marketing, selling and supporting our products and services, the timing and extent of establishing additional markets and other factors. We expect that our cash and investment balances will be sufficient to meet our working capital and capital expenditure needs for at least the next 12 months. After that, we may need to raise additional funds for a number of uses. We may not be able to obtain additional funds on acceptable terms, or at all. We expect to devote substantial capital resources to search for, investigate and, potentially, acquire new businesses, companies or technologies. We acquired Invisinet, Inc. without using cash, by issuing the Company's common stock. The sale of additional equity or convertible debt securities may result in additional dilution to our shareholders.

Critical Accounting Policies

Financial Reporting Release No. 60, which was recently published by the SEC, recommends that all companies include a discussion of critical accounting policies used in the preparation of their financial statements. The Company's significant accounting policies are summarized in Note 2 of its financial statements. While all these significant accounting policies impact its financial condition and results of operations, the Company views certain of these policies as critical. Policies determined to be critical are those policies that have the most significant impact on the Company's financial statements and require management to use a greater degree of judgment and/or estimates. Actual results may differ from those estimates.

The Company believes that given current facts and circumstances, it is unlikely that applying any other reasonable judgments or estimate methodologies would cause a material effect on the Company's consolidated results of operations, financial position or liquidity for the periods presented in this report.

The accounting policies identified as critical are as follows:

Revenue Recognition. The Company recognizes revenues in accordance with accounting principles generally accepted in the United States of America as outlined in SAB No. 101 which requires that four basic criteria be met before revenue can be recognized: (1) persuasive evidence of an arrangement exists, (2) product delivery, including customer acceptance, has occurred or services have been rendered, (3) the price is fixed or determinable and (4) collectibility is reasonably assured. The Company believes that its revenue recognition policy is critical because revenue is a very significant component of its results of operations. Decisions relative to criteria (4) regarding collectibility are based upon management judgments and should conditions change in the future and cause management to determine these criteria are not met, the Company's recognized results may be affected.

Allowance for Doubtful Accounts. The Company performs ongoing credit evaluations of its customers and adjusts credit limits based upon payment history and the customer's current credit worthiness, as determined by a review of their current credit information. The Company continuously monitors collections and payments from customers and a provision for estimated credit losses is maintained based upon its historical experience and any specific customer collection issues that have been identified. At October 31, 2002, \$30,000 of accounts receivable was overdue. While the accounts receivable related to these customers may be late, the Company does not believe the credit loss risk to be significant given the consistent payment history by these customers. However, the Company has recorded an allowance of \$26,285 as of October 31, 2002.

17

Recent Accounting Pronouncements.

In April 2002, the FASB issued SFAS No. 145, "Rescission of FASB Statements No.

4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections." This statement eliminates the requirement under SFAS 4 to aggregate and classify all gains and losses from extinguishments of debt as an extraordinary item, net of related income tax effect. This statement also amends SFAS 13 to require that certain lease modifications with economic effects similar to sale-leaseback transactions be accounted for in the same manner as sale-leaseback transactions. In addition, SFAS 145 requires reclassification of gains and losses in all prior periods presented in comparative financial statements related to debt extinguishments that do not meet the criteria for extraordinary item in Accounting Principles Board Opinion 30. The statement is effective for fiscal years beginning after May 15, 2002 with early adoption encouraged. The Company will adopt SFAS 145 effective May 1, 2003. The Company is currently evaluating the requirements and impact of this statement on our consolidated results of operations and financial position. We do not believe that the adoption of SFAS 145 will have any material effect on our consolidated financial statements.

On July 30, 2002, the FASB issued SFAS 146, "Accounting for Costs Associated with Exit or Disposal Activities." The statement requires companies to recognize costs associated with exit or disposal activities when they are incurred rather than at the date of a commitment to an exit or disposal plan. Examples of costs covered by the statement include lease termination costs and certain employee severance costs that are associated with a restructuring, discontinued operation, plant closing, or other exit or disposal activity. SFAS 146 is to be applied prospectively to exit or disposal activities initiated after December 31, 2002. The Company is currently evaluating the requirements and impact of this statement on our consolidated results of operations and financial position.

ITEM 3. CONTROLS AND PROCEDURES

- (a) Evaluation of disclosures. The Company maintains disclosure controls and procedures designed to provide reasonable assurance that information required to be disclosed in the reports filed with the SEC is recorded, processed, summarized and reported within the time periods specified in the rules of the SEC. Within 90 days prior to the filing of this Quarterly Report on Form 10-QSB, an evaluation, was completed under the supervision and participation of management, including the Chief Executive Officer and Chief Financial Officer, of the design and operation of this disclosure controls and procedures pursuant to Exchange Act Rule 13a-14. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective in timely alerting them to material information relating to the company (including the Company's consolidated subsidiaries) required to be included in the periodic SEC filings.
- (b) Changes in internal controls. There were no significant changes in internal controls or other factors that could significantly affect the Company's internal controls subsequent to the date of our evaluation.

Part II - OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS.

From time to time the Company is subject to litigation incidental to its business. Such claims, if successful, could exceed applicable insurance coverage. The Company is not currently a party to any material legal proceedings.

Item 2. CHANGES IN SECURITIES AND USE OF PROCEEDS.

None.

Item 3. DEFAULTS UPON SENIOR SECURITIES.

Not applicable.

Item 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

Not applicable.

Item 5. OTHER INFORMATION.

Not applicable.

Item 6. EXHIBITS AND REPORTS ON FORM 8-K.

(a) Exhibits.

99.1 Certification of Chief Financial Officer, Chief Executive Officer

(b) Reports on Form 8-K.

Report on Form 8-K/A, dated August 6, 2002

Report on Form 8-K, dated August 21, 2002

Report on Form 8-K/A, dated September 4, 2002

Report on Form 8-K/A dated November 27, 2002

CERTIFICATIONS

I, Andrew Hidalgo, certify that:

- 1) I have reviewed this quarterly report on Form 10-QSB of WPCS International Incorporated ("the registrant);
- 2) Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
- 3) Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
- 4) I am responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) for the registrant and have:
 - a) designed such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;

- b) evaluated the effectiveness of the registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this quarterly report (the "Evaluation Date"); and
 - c) presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the Evaluation Date;
- 5) I have disclosed, based on my most recent evaluation, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
- a) all significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and

23

- 6) The registrant's other certifying officers and I have indicated in this quarterly report whether or not there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
