

PROSPECTUS SUPPLEMENT
(To prospectus dated December 2, 2020)

3,333,334 Shares of Common Stock

AYRO, Inc.

We are offering 3,333,334 shares of our common stock pursuant to this prospectus supplement and accompanying prospectus to certain institutional investors. Each share of common stock is being sold at a price per share equal to \$6.00. In a concurrent private placement, we are also selling to such investors warrants to purchase up to 3,333,334 shares of our common stock (the “Warrants”), which represent 100% of the number of shares of our common stock being purchased in this offering, exercisable for one share of our common stock at an exercise price of \$6.93 per share, and exercisable six months after the closing of this offering, with a term of two and a half years from the date of issuance. The Warrants and the shares of our common stock issuable upon the exercise of the Warrants (the “Warrant Shares”) are being offered pursuant to the exemptions provided in Section 4(a)(2) under the Securities Act of 1933, as amended (the “Securities Act”) and Rule 506(b) promulgated thereunder, and they are not being offered pursuant to this prospectus supplement and the accompanying prospectus. There is no established public trading market for the Warrants and we do not expect a market to develop. In addition, we do not intend to list the Warrants on The Nasdaq Capital Market, any other national securities exchange or any other nationally recognized trading system.

Our common stock is traded on The Nasdaq Capital Market under the symbol “AYRO.” On January 22, 2021, the closing sale price of our common stock on The Nasdaq Capital Market was \$6.93 per share.

This investment involves a high degree of risk. See “Risk Factors” on page S-14 of this prospectus supplement and any similar section contained in the accompanying prospectus and in the documents that are incorporated by reference herein and therein.

Palladium Capital Advisors, LLC, or Palladium, acted as placement agent in connection with this offering. Palladium is entitled to a fee equal to 8.0% of the gross proceeds raised in the offering from the sale of common stock to certain of the investors, or an aggregate of approximately \$1,600,000, and a warrant to purchase 233,334 shares of our common stock (which equals 7% of the aggregate number of shares sold in this offering) at an exercise price of \$6.90 per share (which represents 115% of the offering price per share sold in this offering). Palladium’s warrant will have terms identical to the Warrants.

The gross proceeds to us before fees and expenses will be \$20,000,000. After the deduction of placement agent fees of this offering payable in cash, proceeds to us, before expenses, will be approximately \$18,400,000. See “Plan of Distribution” on page S-20 of this prospectus supplement for more information regarding the compensation of the placement agent.

Delivery of the shares of common stock to investors is expected to occur on or about January 27, 2021, subject to satisfaction of customary closing conditions.

Effective as of 6:05 pm Eastern Time on May 26, 2020, we filed an amendment to our Amended and Restated Certificate of Incorporation to effect a reverse stock split of the issued and outstanding shares of our common stock, at a ratio of one share for ten shares. Immediately following the reverse stock split, we issued a stock dividend of one share of the Company’s common stock for each outstanding share of common stock to all holders of record immediately following the effective time of the reverse stock split. The net result of the reverse stock split and the stock dividend was a 1-for-5 reverse stock split. All share and per share prices in this prospectus supplement have been adjusted to reflect the reverse stock split and the stock dividend.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

The date of this prospectus supplement is January 25, 2021.

ABOUT THIS PROSPECTUS SUPPLEMENT

This document is part of the registration statement that we filed with the Securities and Exchange Commission, or the SEC, using a “shelf” registration process and consists of two parts. The first part is this prospectus supplement, including the documents incorporated by reference, which describes the specific terms of this offering. The second part, the accompanying prospectus, including the documents incorporated by reference, gives more general information, some of which may not apply to this offering. Generally, when we refer only to the “prospectus,” we are referring to both parts combined. This prospectus supplement may add to, update or change information in the accompanying prospectus and the documents incorporated by reference into this prospectus supplement or the accompanying prospectus.

If information in this prospectus supplement is inconsistent with the accompanying prospectus or with any document incorporated by reference that was filed with the SEC before the date of this prospectus supplement, you should rely on this prospectus supplement. This prospectus supplement, the accompanying prospectus and the documents incorporated into each by reference include important information about us, the securities being offered and other information you should know before investing in our securities. You should also read and consider information in the documents we have referred you to in the section of this prospectus supplement and the accompanying prospectus entitled “Incorporation by Reference” and “Where You Can Find More Information” as well as any free writing prospectus provided in connection with this offering.

You should rely only on this prospectus supplement, the accompanying prospectus, and any free writing prospectus provided in connection with this offering and the information incorporated or deemed to be incorporated by reference in this prospectus supplement and the accompanying prospectus. We have not authorized anyone to provide you with information that is in addition to or different from that contained or incorporated by reference in this prospectus supplement, the accompanying prospectus, and any free writing prospectus provided in connection with this offering. If anyone provides you with different or inconsistent information, you should not rely on it. We are not offering to sell these securities in any jurisdiction where the offer or sale is not permitted. You should not assume that the information contained or incorporated by reference in this prospectus supplement, the accompanying prospectus, or any free writing prospectus provided in connection with this offering is accurate as of any date other than as of the date of this prospectus supplement, the accompanying prospectus, or such free writing prospectus, as the case may be, or in the case of the documents incorporated by reference, the date of such documents regardless of the time of delivery of this prospectus supplement and the accompanying prospectus or any sale of our securities. Our business, financial condition, liquidity, results of operations and prospects may have changed since those dates.

Unless the context otherwise indicates, references in this prospectus to “AYRO”, “we”, “our”, “us” and “the Company” refer, collectively, to AYRO, Inc. and its subsidiaries.

We own various U.S. federal trademark registrations and applications, and unregistered trademarks and service marks, including “AYRO” and our corporate logo. All trademarks or trade names referred to in this prospectus are the property of their respective owners. Solely for convenience, the trademarks and trade names in this prospectus may be referred to without the ® and ™ symbols, but such references should not be construed as any indicator that their respective owners will not assert, to the fullest extent under applicable law, their rights thereto. We do not intend our use or display of other companies’ trademarks and trade names to imply a relationship with, or endorsement or sponsorship of us by, any other companies.

No action is being taken in any jurisdiction outside the United States to permit a public offering of the securities or possession or distribution of this prospectus supplement, the accompanying prospectus, or any free writing prospectus provided in connection with this offering in that jurisdiction. Persons who come into possession of this prospectus supplement, the accompanying prospectus, or any free writing prospectus provided in connection with this offering in jurisdictions outside the United States are required to inform themselves about and to observe any restrictions as to this offering and the distribution of this prospectus supplement, the accompanying prospectus, or any free writing prospectus provided in connection with this offering applicable to that jurisdiction. This prospectus supplement and the accompanying prospectus do not constitute, and may not be used in connection with, an offer to sell, or a solicitation of an offer to buy, any securities offered by this prospectus supplement and the accompanying prospectus by any person in any jurisdiction in which it is unlawful for such person to make such an offer or solicitation.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus supplement and the accompanying prospectus, including the documents that we incorporate by reference herein and therein, contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, or the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act. Any statements about our expectations, beliefs, plans, objectives, assumptions or future events or performance are not historical facts and may be forward-looking. These statements are often, but are not always, made through the use of words or phrases such as “anticipate,” “believe,” “contemplate,” “continue,” “could,” “estimate,” “expect,” “intend,” “may,” “plan,” “potential,” “predict,” “project,” “seek,” “should,” “target,” “will,” “would,” and similar expressions, or the negative of these terms. Accordingly, these statements involve estimates, assumptions and uncertainties which could cause actual results to differ materially from those expressed in them. Any forward-looking statements are qualified in their entirety by reference to the factors discussed throughout this prospectus supplement and the accompanying prospectus, and in particular those factors referenced in the sections entitled “Risk Factors.”

This prospectus supplement and the accompanying prospectus contain forward-looking statements that are based on our management’s belief and assumptions and on information currently available to our management. These statements relate to future events or our future financial performance, and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. Numerous factors could cause our actual results to differ materially from those described in forward-looking statements, including, among other things:

- we may be acquired by a third party based on preexisting agreements;
- we have a history of losses and have never been profitable, and we expect to incur additional losses in the future and may never be profitable;

- the market for our products is developing and may not develop as expected;
- our business is subject to general economic and market conditions;
- our business, results of operations and financial condition may be adversely impacted by public health epidemics, including the recent COVID-19 outbreak;
- our limited operating history makes evaluating our business and future prospects difficult and may increase the risk of any investment in our securities;
- we may experience lower-than-anticipated market acceptance of our vehicles;
- developments in alternative technologies or improvements in the internal combustion engine may have a materially adverse effect on the demand for our electric vehicles;
- the markets in which we operate are highly competitive, and we may not be successful in competing in these industries;
- a significant portion of our revenues are derived from a single customer;
- we rely on and intend to continue to rely on a single third-party supplier for the sub-assemblies in semi-knocked-down for all of our vehicles;
- we may become subject to product liability claims, which could harm our financial condition and liquidity if we are not able to successfully defend or insure against such claims;
- the range of our electric vehicles on a single charge declines over time, which may negatively influence potential customers' decisions whether to purchase our vehicles;

S-iii

- increases in costs, disruption of supply or shortage of raw materials, in particular lithium-ion cells, could harm our business;
- our business may be adversely affected by labor and union activities;
- we will be required to raise additional capital to fund our operations, and such capital raising may be costly or difficult to obtain and could dilute our stockholders' ownership interests, and our long-term capital requirements are subject to numerous risks;
- increased safety, emissions, fuel economy, or other regulations may result in higher costs, cash expenditures, and/or sales restrictions;
- we may fail to comply with environmental and safety laws and regulations;
- our proprietary designs are susceptible to reverse engineering by our competitors;
- if we are unable to protect the confidentiality of our trade secrets or know-how, such proprietary information may be used by others to compete against us;
- should we begin transacting business in other currencies, we are subject to exposure from changes in the exchange rates of local currencies;
- we are subject to governmental export and import controls that could impair our ability to compete in international market due to licensing requirements and subject us to liability if we are not in compliance with applicable laws;
- our expected use of proceeds from this offering; and
- other factors discussed in this prospectus supplement and the accompanying prospectus and the documents incorporated by reference herein and therein, including those set forth under "Risk Factors" in our Quarterly Report on Form 10-Q filed with the SEC on November 6, 2020 (the "Form 10-Q").

We have included important factors in the cautionary statements included in this prospectus supplement and the accompanying prospectus and the documents we incorporate by reference herein and therein, including from the Form 10-Q, particularly in the "Risk Factors" sections of these documents, that we believe could cause actual results or events to differ materially from the forward-looking statements that we make. Our forward-looking statements do not reflect the potential impact of any future acquisitions, mergers, dispositions, joint ventures or investments we may make. No forward-looking statement is a guarantee of future performance.

You should read this prospectus supplement and the accompanying prospectus and the documents that we incorporate by reference herein and therein completely and with the understanding that our actual future results may be materially different from what we expect. The forward-looking statements in this prospectus supplement and the accompanying prospectus and the documents we incorporate by reference herein and therein represent our views as of the date of this prospectus supplement. We anticipate that subsequent events and developments will cause our views to change. However, while we may elect to update these forward-looking statements at some point in the future, we have no current intention of doing so except to the extent required by applicable law. You should, therefore, not rely on these forward-looking statements as representing our views as of any date subsequent to the date of this prospectus supplement.

S-iv

PROSPECTUS SUPPLEMENT SUMMARY

The following summary of our business highlights some of the information contained elsewhere in, or incorporated by reference into, this prospectus supplement. Because this is only a summary, however, it does not contain all of the information that may be important to you. You should carefully read this prospectus supplement and the accompanying prospectus, including the documents incorporated by reference herein, which are described under "Incorporation of Certain Information by Reference" in this prospectus supplement. You should also carefully consider the matters discussed in the section of this prospectus supplement entitled "Risk Factors" and under similar sections of the accompanying prospectus and other periodic reports incorporated herein and therein by reference. See information set forth under the section "Special Note Regarding Forward-Looking Statements."

On May 28, 2020, pursuant to the previously announced Agreement and Plan of Merger, dated December 19, 2019 (the "Merger Agreement"), by and among AYRO, Inc., a Delaware corporation previously known as DropCar, Inc. ("we," "us," "our" or the "Company"), ABC Merger Sub, Inc., a Delaware corporation and a wholly owned subsidiary of the Company ("Merger Sub"), and AYRO Operating Company, Inc., a Delaware corporation previously known as AYRO, Inc. ("AYRO Operating"), Merger Sub was merged with and into AYRO Operating, with AYRO Operating continuing after the merger as the surviving entity and a wholly owned subsidiary of the Company (the "Merger"). In this prospectus, unless the context otherwise requires, references to "we," "us," "our," "our company" and "AYRO" refer to AYRO, Inc. and its subsidiaries. References to "DropCar" refer to DropCar, Inc. prior to the Merger.

Overview

We design and manufacture compact, sustainable electric vehicles for closed campus mobility, urban and community transport, local on-demand and last mile delivery, and government use. Our three- and four-wheeled purpose-built electric vehicles are geared toward commercial customers including universities, last mile delivery services and food service providers.

Our Products

AYRO vehicles provide the end user an environmentally friendly alternative to internal combustion engine vehicles (cars powered by gasoline or diesel oil), for light duty uses, including low-speed logistics, maintenance and cargo services, at a lower total cost.

AYRO Club Car 411

The AYRO Club Car 411 (the “AYRO 411 Fleet”) is a family of electric, four-wheel compact, light-duty utility trucks sold exclusively through AYRO’s contracted partner, Club Car, as part of a global multi-year sustainability solution development, sales and marketing agreement. Each of the AYRO 411 Fleet of vehicles is classified as a street legal low speed vehicle (“LSV”), defined as a four-wheeled motor vehicle, other than an all-terrain vehicle, that is capable of reaching speeds of at least 20 miles per hour (“mph”) but not greater than 25 mph, with a gross vehicle weight rating of less than 3,000 pounds and meets the safety standards in Title 49 of the U.S. Code of Federal Regulations, section 571.50.

The AYRO 411 Fleet has an expected range of up to 50 miles and a maximum speed range of 25 mph (or 40 kilometers per hour), in line with the United States Department of Transportation (“USDOT”) regulations for low-speed vehicles and with most state statutes, which typically limit the speed of LSVs to 25 mph on 35 mph posted roads. The current AYRO 411 Fleet includes:

- the 411 Flatbed truck, which provides drivers with considerable versatility of use;
- the 411 Pickup truck, which is ideal for hauling; and
- the 411 Cargo Van Box, a fully enclosed cargo box.

S-1

The AYRO 411 Fleet has zero gas emissions, a recharge capability of up to six to eight hours using 120V/20A outlets and has a payload capacity of up to 1,100 pounds. AYRO estimates that the AYRO 411 Fleet’s operating costs are approximately 50% lower per year compared to similarly sized gas-powered trucks/vans. Vehicles in the AYRO 411 Fleet are equipped with:

- reinforced steel (coated) chassis houses the motor, controller and enclosed battery operating system;
- auto-grade suspension with Transverse Leaf Spring on the front and horizontal spring with coil-over shock in the rear;
- power assisted steering;
- street legal if registered/licensed per standard vehicles by dealer or user;
- multi-point, anchored DOT compliant safety harnesses for driver and passenger;
- a standard back-up camera (appears on larger LCD display – see below);
- a standard 7-inch (17.7 centimeter) LCD display;
- a standard manual parking break;
- four-wheel all-disk braking system and corrosion resistant body panels; and
- heating and ventilation systems in the cabin of the truck.

With its low speed, zero-emissions, and cost-effectiveness, the AYRO 411 Fleet seeks to satisfy the needs of a variety of customers, including university and college campuses, retailers, airports and ports, business parks and campuses, warehouses, production facilities, resorts and theme parks, apartments and condos.

AYRO 311 Autocycle

The AYRO 311 Autocycle (the “AYRO 311”) is a compact, light-duty street-legal electric vehicle with a maximum speed of up to 50 mph. Strategically engineered with USDOT-compliant automotive parts, the AYRO 311 is built to a high-performance standard, has standard automotive controls and does not require any special licenses or conditions in order to drive. Like the AYRO 411 Fleet, it has a range of up to 50 miles, has zero gas emissions and a recharge capability of up to six to eight hours using 120V/20A and its operating costs are estimated to be approximately 50% lower per year compared to gas-powered vehicles.

AYRO 311’s equipment includes:

- a standard back-up camera, a standard 7-inch (17.7 centimeter) LCD display;
- a standard manual parking break; enclosed and corrosion resistant body panels;
- heating, ventilation, and fan systems in the cabin of the vehicle;
- standard automotive controls including foot accelerator and brake pedals;
- a USDOT-approved windshield, a windshield wiper and washer system;
- a driver’s 3-point safety belt and a passenger’s 4-point safety belt; warning flashers;

- AM and FM radio;
- Bluetooth capabilities;
- a GPS system; and
- an SD card slot.

With its automotive-style controls (a steering wheel and foot pedals), the AYRO 311 drives like a regular car and accommodates the average consumer and is designed for neighborhood food delivery, last mile delivery, parking enforcement and urban dwellers. More specifically, this product targets urban dwellers due to its compact size in dense urban environments. The AYRO 311 also targets commercial customers, such as neighborhood food and product delivery fleets, gated communities, country clubs, and colleges and universities due to its highly customizable appearance with a range of brand and logo wraps, spot graphics, and color options (glossy white or athletic red), its compact design and ability to go virtually anywhere. The AYRO 311 also targets municipalities and facilities as customers for use in parking enforcement, special events, and public safety.

AYRO 511 (Concept)

AYRO is currently investigating and researching the concept vehicle, the AYRO 511, a new full-time four-wheel drive electric vehicle. The AYRO 511 is expected to have 13 inches (33 centimeters) of clearance and enhanced stability in a diverse array of terrains and seasons. Additionally, the truck will be designed to operate with an automotive-style drive system, cutting driving noise down to a minimum.

Additional Models and Vehicles

AYRO is currently in discussions with Club Car regarding a variety of new models and vehicles.

Manufacturing and Supply Chain

Manufacturing Agreement with Cenntro

In 2017, AYRO partnered with Cenntro Automotive Group, Ltd. (“Cenntro”), which operates a large electric vehicle factory in the automotive district in Hangzhou, China, in a supply chain agreement to provide sub-assembly manufacturing services. Through the partnership, Cenntro acquired nineteen percent (19%) of AYRO’s common stock. Cenntro beneficially owned approximately 13.7% as of December 31, 2019. Cenntro owns the design of the AYRO 411 Fleet vehicles and has granted AYRO an exclusive license to purchase the AYRO 411 Fleet vehicles for sale in North America.

Under AYRO’s Manufacturing License Agreement with Cenntro (the “MLA”), in order for AYRO to maintain its exclusive territorial rights pursuant to the MLA, for the first three years after the effective date of April 27, 2017, AYRO must meet the following minimum sale requirements: (i) a minimum of 300 units sold by the first anniversary of the effective date of the MLA; (ii) a minimum of 800 units sold by the second anniversary of the effective date of the MLA; and (iii) a minimum of 1,300 units sold by the third anniversary of the effective date of the MLA. Cenntro will determine the minimum sale requirements for the years thereafter. Should any event of default occur, the other party may terminate the MLA by providing written notice to the defaulting party, who will have 90 days from the effective date of the notice to cure the default. Unless waived by the party providing notice, a failure to cure the default(s) within the time 90-day time frame will result in the automatic termination of the MLA. Events of default under the MLA include a failure to make a required payment when due, the insolvency or bankruptcy of either party, the subjection of either party’s property to any levy, seizure, general assignment for the benefit of creditors, and a failure to make available or deliver the products in the time and manner provided for in the MLA.

Cenntro is also being used to perform sub-assembly manufacturing of the AYRO 311. AYRO imports semi-knocked-down vehicle kits from Cenntro for both the 411 and 311 models. The vehicle kits are received through shipping containers by AYRO’s assembly facility in Round Rock, Texas. The vehicles are then assembled with limited customization requirements per order. As such, the partnership with Cenntro allows AYRO to scale manufacturing operations without significant investment in capital expenditures, and therefore bring products to market rapidly.

AYRO currently occupies 24,000 square feet of manufacturing space configured in a “U”-shaped assembly line with multiple stations per vehicle. AYRO’s manufacturing space allows multiple assembly lines plus adequate raw material storage. The chart below indicates the number of vehicles and assembly time required for each. Assembly time also includes USDOT quality checks and testing as the final step of the assembly process. Additionally, the number of vehicles indicated below assumes a single shift. AYRO believes that its volumes could be doubled per line by adding a second shift that would operate from 4pm to midnight.

Vehicle	Assembly time (Man-Hours)	Vehicles assembled per month
AYRO 411	12.0	200
AYRO 311	14.0	200
AYRO 311x (estimated)	15.0	200

Master Procurement Agreement with Club Car

In March 2019, AYRO entered into a five-year Master Procurement Agreement (the “MPA”) with Club Car for the sale of AYRO’s four-wheeled vehicles. The MPA grants Club Car the exclusive right to sell the AYRO 411 Fleet in North America, provided that Club Car orders a mutually agreed on number of AYRO vehicles per year. Under the terms of the MPA, AYRO receives orders from Club Car dealers for vehicles of specific configurations, and AYRO invoices Club Car once the vehicle has shipped. The MPA has an initial term of five years commencing January 1, 2019 and may be renewed by Club Car for successive one-year periods upon 60 days’ prior written notice. AYRO also agreed to collaborate with Club Car on developing new products similar to the AYRO 411 Fleet and improvements to existing products, and AYRO granted Club Car a right of first refusal to purchase similar commercial utility vehicles which AYRO develops during the term of the MPA. AYRO is currently engaged in discussions with Club Car to develop additional products to be sold by Club Car in Europe and Asia, but there can be no assurance that these discussions will be successful. Pursuant to the MPA, AYRO also granted Club Car a right of first refusal in the event that AYRO intends to sell 51% or more of its assets or equity interests, which right of first refusal is exercisable for a period of 45 days following AYRO’s delivery of an acquisition notice to Club Car.

Manufacturing Services Agreement with Karma

On September 25, 2020, we entered into a Master Manufacturing Services Agreement (the “Karma Agreement”) with Karma Automotive LLC (“Karma”), pursuant to which Karma agreed to provide certain manufacturing services for the production of our vehicles. The initial statement of work provides that Karma will perform assembly of a certain quantity of our 411 product and provide testing, materials management and outbound logistics services. For such services in the initial statement of work, we agreed to pay \$1,160,800 to Karma, of which (i) \$520,000 was paid at closing and (ii) \$640,000 is due and payable five months following the satisfaction of certain production requirements.

The Karma Agreement expires (i) 12 months from the start of volume production of the vehicles or (ii) such earlier time as the parties mutually agree in writing. In addition, Karma, in its sole discretion, may terminate the Karma Agreement at any time, without cause, upon twelve months’ prior written notice. We may terminate the Karma Agreement, without cause, upon six months’ prior written notice.

Strategic Partnership with Autonomic

Additionally, AYRO is developing a technology platform that can be deployed to any vehicle as additional value-add subscriptions offered directly to the end customer. AYRO has partnered with Autonomic, a wholly-owned subsidiary of Ford Smart Mobility LLC, to collect vehicle health, use and location information (telematics) in its transportation mobility cloud and produce purpose-built information back to AYRO, customers and fleet operators, generating an additional revenue stream. Working together, the companies aim to develop a range of services to enable mobility applications for AYRO’s line of vehicles which power everything from moving products and equipment to people and last-mile delivery services.

S-4

Engineering Development and Production Process Validation

As a baseline, AYRO’s product development and engineering efforts align with the Society of Automotive Engineering (“SAE”) J2258_201611 standards for Light Utility Vehicles. The J2258 standard provides key compliance criteria for Gross Vehicle Weight Rating (“GVWR”), occupant protection and safety restraint systems, lateral and longitudinal stability, center of gravity and operating controls, among others. AYRO’s test validation and inspection standards follow Federal Motor Vehicle Safety Standards (“FMVSS”) 49 CFR 571.500 for LSVs with the additions of SAE J585 and FMVSS 111 for rear visibility, lighting, signaling, reflectors, changes in direction of movement, back-up camera response timing and field of view.

AYRO’s development standards and test compliance validation processes are supported by a variety of test documentation including supplier self-reporting, third party laboratory test reports and regional compliance validation with the California Air Resource Board (“CARB”) for speed, range and environmental performance.

AYRO’s production system follows a lean, cell-based, manufacturing model. The process involves the following five sequential cells: (1) cab preparation, (2) chassis preparation, (3) system integration and testing, (4) final assembly and integration test, and (5) QA & FMVSS Compliance. Assembly quality and shift efficiency metrics are measured daily by AYRO production staff at end of every shift.

AYRO maintains a certification and compliance check list for each vehicle. AYRO’s three and four-wheeled vehicles use an automotive style steering wheel, turn signal stalk, headlight, running light and reverse light controls, a multi-speed windshield wiper and washer and an accelerator and brake pedal consistent with controls employed in standard passenger cars. As the AYRO 311 and AYRO 411 are direct drive vehicles, there is no stick shift, clutch, paddle shift, or belt driven CSV (continuously variable) transmission needed to operate the vehicles within the intended torque band and speed range. Accordingly, AYRO’s vehicles are homologated under existing U.S., state and local LSV requirements and the corresponding motorcycle and autocycle requirements under 49 CFR 571.3.

The Industry and AYRO’s Competitive Position

The U.S. electric vehicle market is expected by many commentators to increase dramatically over the next decade, driven by factors such as the country’s increasingly urbanized population, the significant cost of owning and operating gas-powered vehicles, the growing global awareness of the damaging effects of pollution and greenhouse gas emissions, and rising investment in clean technology and supporting infrastructure.

A segment of the electric vehicle market, low speed electric vehicles (“LSEVs”)—which are LSVs but cannot be powered by gas or diesel fuel—are growing increasingly popular as eco-friendly options for consumers and commercial entities. LSEVs run on electric motors fueled by a variety of different batteries, such as lithium ion, molten salt, zinc-air and various nickel-based designs.

In 2017, the global LSEV market was valued at approximately \$2,395 million, according to Allied Market Research, and global sales of LSEVs have only continued to grow over the past two years, with sales expected to reach 1.5 million units in 2021. According to the Low Speed Electric Vehicles Market report conducted by Market Study Report, over the next five years, the LSEV market is expected to register a 10.8% compound annual growth rate in terms of revenue, with the global market size expected to reach \$8,870 million by 2024, up from \$4,790 million in 2019.

Trends Driving the Need for Electric Vehicles

Trends such as increasingly stringent government regulations aimed toward reducing vehicle emissions, growing urban populations, and social pressure to adopt sustainable lifestyles all create a demand for more ecologically and economically sustainable methods of transportation. This demand continues to spur technological advancements and LSEV market growth.

S-5

Incentivizing Effect of Government Rules and Regulations. Expanding rules and regulations governing vehicle emissions have contributed to growth in the LSEV market. In particular, the U.S., Germany, France, and China have implemented stringent laws and regulations governing vehicular emissions, requiring automobile manufacturers to use advanced technologies to combat high-emission levels in vehicles. To incentivize clean-energy use, many governments are increasingly instituting substantial incentives for consumers to purchase electric vehicles, such as:

- tax credits, rebates, and exemptions; reduced vehicle registration fees;
- reduced utility rates; and
- parking incentives.

Further, governments are establishing infrastructure benchmarks to support the growth of the electric vehicle industry.

A prime example of government involvement in developing the electric vehicle industry, a recent New Jersey bill aims to have 330,000 electric vehicles on state roads by the end of 2024 and a total of 2 million by 2035. To facilitate this goal, the bill calls for the state to have 400 fast-charging stations and another 1,000 slow-charging stations, both by 2025. Thirty percent of all apartment, condo and townhouse developments in New Jersey would need to have chargers by 2030, while half of all franchise hotels would need to have chargers by 2050. As the network of government rules and regulations expands, so too should investment in the research and development of LSEV technology and infrastructure.

Urbanization on the Rise. According to the U.N., in 2015, 55% of the world's population was urban, and by 2050, it is estimated that this percentage will increase to 68%. As the world population continues to urbanize, a growing number of consumers are expected to seek alternatives, such as LSEVs, to internal combustion engine vehicles in order to save money and space in congested city streets.

Increasing Sense of Social Responsibility. In tandem with governmental efforts to curb pollution and encourage more sustainable transportation practices, consumers face increasing social pressure to adopt eco-friendly lifestyles. As this demand grows, the LSEV market should continue to develop.

Target Markets

The multipurpose applications and clean energy use of LSEVs make them popular across a wide array of industries and customers, including college and university campuses, resorts and hotels, corporate parks, hospitals, warehouses, individual consumers, last mile delivery service providers, municipalities, and the food service industry. A number of these market segments, and AYRO's competitive position within them, are discussed in greater detail below.

Universities. LSEVs are growing increasingly common on university and college campuses due to a number of factors. LSEVs fulfill the versatile needs of campuses better than golf carts or standard combustion vehicles because, not only does LSEVs' low speed threshold promote safer driving among pedestrians, the vehicles are also street legal with on-road safety features, enabling drivers to drive on roads and free up pedestrian space along sidewalks and smaller pathways. Additionally, the significantly reduced carbon imprint of LSEVs compared to internal combustion engine vehicles appeal to environmentally aware students and professors looking to promote environmental sustainability on campus. By transitioning from internal combustion engine vehicles to LSEVs, campuses should be able to reduce significantly the costs spent on fuel, oil, parts, and maintenance. AYRO's vehicles, particularly the AYRO 411 Fleet, provide all of these benefits to university and college campuses. AYRO estimates that in the U.S., there are over 1,800 higher education campuses with over 10,000 students each with over 400 on-campus vehicles that are ideal targets for the AYRO 411 Fleet as campuses transition from fossil-fueled campus fleet vehicles to EVs.

Food Delivery Services. As the millennial generation assumes a more substantial portion of the consumer population, customers increasingly favor convenience and timeliness, spurring dramatic growth in online ordering and delivery services across a wide swath of industries, including food delivery and restaurant ordering services. Food delivery sales are anticipated to increase over 20% per year, culminating in an expected \$365 billion worldwide by 2030, according to Upserve. Upserve further estimates that approximately 60% of U.S. consumers report that they order delivery or takeout at least once a week. Within the next decade, potentially over 40% of restaurant sales will be attributable to delivery services, according to Morgan Stanley.

In its market research, AYRO has determined that delivery services, including restaurants using the AYRO 311 as a delivery vehicle rather than outsourcing delivery to third party services, have reduced their delivery costs by up to 50%. Delivery service companies using the AYRO 311 as an in-house delivery vehicle rather than outsourcing delivery are also better equipped to manage the customer experience and maintain customer relationships and data.

Last Mile Delivery Service. Retail focus on last mile delivery—the movement of goods from a transportation hub to the final delivery destination—has grown exponentially over the past few years due to the rise in online ordering and e-commerce. Consumers' ability to pick and choose products based on delivery speed and availability makes last mile delivery a key differentiator among retailers. Last mile delivery provides retailers timelier and more convenient delivery options not offered by the main three shipping services in the U.S. (the U.S. Postal Service, FedEx, and UPS). Additionally, given the increasing designation of low emission zones in urban centers, retailers will need to continue to deploy eco-friendly vehicles. Retailers will likely expand the use of LSEV fleets to make deliveries in low emission zones due to their zero gas emissions and lower price than competing electric vehicles. AYRO expects that the AYRO 411 Fleet, with its variety of cargo bed options ideal for hauling and delivery and its low price point, should stand out among the competition. Additionally, the AYRO 311 autocycle is ideal for short point-destination deliveries for smaller packages and urgent urban courier-style deliveries.

Municipalities. As more city governments adopt regulations geared toward reducing pollution from vehicles, cities are increasingly looking to replace their municipal vehicles with zero-emission fleets. Such fleet overhauls, however, can be costly. LSEVs are a cheaper and more practical option for cities daunted by the cost of standard electronic vehicles. AYRO's LSEVs have both on and off-road capabilities, making them particularly versatile for municipalities.

On-Road and Personal Transportation. LSEVs offer a feasible and practical method of transportation, especially in urban centers. Because AYRO's LSEVs are street-legal, they offer city dwellers a more sustainable, cost-efficient, easily maneuverable, compact and light weight option compared to internal combustion engine vehicles. AYRO LSEVs also offer a variety of specifications and equipment, meaning that consumers do not have to sacrifice comfort or convenience.

Market Considerations

AYRO primarily focuses on the LSEV North American market, which is highly competitive and constitutes 28% of the global LSEV market according to Wise Guy Reports. AYRO has examined various considerations with regard to the AYRO's market impact, including cost comparisons to existing vehicles in the market, market validation and target commercial markets.

Competition

The worldwide automotive market, particularly for economy and alternative fuel vehicles, is highly competitive, and AYRO expects it will become even more so in the future. Other manufacturers have entered the three-wheeled vehicle market, and AYRO expects additional competitors to enter this market within the next several years. As the LSEV market grows increasingly saturated, AYRO expects to experience significant competition. The most competitive companies in the global LSEV market include HDK Electric Vehicles, Bradshaw Electric Vehicles, Textron Inc., Polaris Industries, Yamaha Motors Co. Ltd., Ingersoll Rand, Inc., Speedway Electric, AGT Electric Cars, Bintliff Electric Vehicles and Ligier Group. AYRO's relationship with Club Car, a division of Ingersoll Rand, Inc., gives AYRO a strong competitive advantage. Despite this fact, many of the other competitors listed above have significantly greater financial, technical, manufacturing, marketing and other resources than AYRO and may be able to devote greater resources to the design, development, manufacturing, distribution, promotion, sale and support of their products. Many of these competitors modify an existing fossil-fuel powered golf cart to meet utility and commercial needs for an all-electric commercial utility vehicle, unlike the AYRO 411 Fleet, which was engineered, designed and produced as a portfolio of electric, light duty trucks and vans.

When compared to internal combustion engine vehicles, AYRO's vehicles are significantly more attractive based on tax, title and license fees and CO2 emissions. Compared to a standard Ford F150 (gasoline) pickup truck (2.7 liter), the AYRO 411 Fleet provides an approximate 49% reduction in operating expenses and an approximate 100% reduction in CO2 emissions (if renewed energy is used to charge the AYRO vehicles, an increasing trend for most higher education campuses and government facilities). Compared to a Nissan Versa (gasoline) four cylinder (1.6 liter) sub-compact car, the AYRO 311 provides a similarly drastic reduction in operating expenses and CO2 emissions. Additionally, the AYRO 311's starting manufacturer suggested retail price ("MSRP") is \$9,999. Arcimoto and SOLO market three-wheeled electric vehicles with starting MSRPs of \$19,900 and \$15,888, respectively.

AYRO's most closely-matched competitor in the LSEV industry is Polaris Gem ("Gem"), an LSEV manufacturer that manufactures products designed for applications similar to AYRO's. Gem offers three passenger vehicle models and two utility vehicle models. Although Gem's GEM el XD model, which is similar to vehicles in the AYRO 411 Fleet, has a lower starting MSRP than the AYRO 411 Fleet, the GEM el XD would need to be highly configured to match the standard AYRO 411 Fleet features and, with such configuration, would exceed the base MSRP of each vehicle in the AYRO 411 Fleet. The AYRO 411 Fleet has a greater pick-up bed and van box capacity than the GEM el XD, in addition to 13% more horsepower and a 48% better turning radius, allowing drivers of the AYRO 411 Fleet to execute maneuvers in tighter spaces than they would using the GEM el XD.

AYRO expects competition in its industry to intensify in the future in light of increased demand for alternative fuel vehicles, continuing globalization and consolidation in the worldwide automotive industry. Factors affecting competition include product quality and features, innovation and development time, pricing, reliability, safety, customer service and financing terms. Increased competition may lead to lower vehicle unit sales and increased inventory, which may result in downward price pressure and may adversely affect AYRO's business, financial condition, operating results and prospects. AYRO's ability to successfully compete in its industry will be fundamental to its future success in existing and new markets and its market share. There can be no assurances that AYRO will be able to compete successfully in its markets. If AYRO's competitors introduce new cars or services that compete with or surpass the quality, price or performance of AYRO's vehicles or services, AYRO may be unable to satisfy existing customers or attract new customers at the prices and levels that would allow AYRO to generate attractive rates of return on its investment. Increased competition could result in price reductions and revenue shortfalls, loss of customers and loss of market share, which could harm AYRO's business, prospects, financial condition and operating results.

AYRO's Strategy

AYRO's goal is to continue to develop and commercialize automotive-grade, sustainable electric transportation solutions for the markets and use cases that AYRO believes can be well served by AYRO's purpose-built, street legal and road-ready electric vehicles. AYRO's business strategy includes the following:

- Leverage the relationship with Club Car to expand AYRO's product portfolio and increase its customer base. AYRO is working on and has plans to expand its current electric transportation solutions portfolio in collaboration with Club Car. This plan includes next generation light duty trucks and new purpose-driven electric vehicles. Additionally, AYRO is collaborating with Club Car's sales and marketing teams to expand adoption of its vehicles in the United States and intends to expand its geographical footprint within Club Car's global distribution and channel network.

S-8

- Rapidly scale up AYRO's operations to achieve growth. AYRO intends to direct resources to scale up AYRO's operations, which AYRO believes is needed to increase its revenue, including expanding and optimizing its automotive component supply chain and AYRO's flow-based assembly operations in Round Rock, Texas. Further, AYRO plans to expand sales territories and add distribution channels, forming strategic partnerships to build-out its whole product offering and to access additional sales channels or to accelerate product adoption for particular vertical markets, building AYRO's brand, and increasing manufacturing capacity to produce higher volumes of electric vehicles.
- Identify defined markets and use cases which are currently under-served but represent sizable market opportunity sub-sets of the electric vehicle market and focus development efforts on road-ready autocycles and other purpose-built electric vehicles to address such markets. AYRO is currently developing a new series of automotive-grade autocycles, engineered and optimized to meet targeted use cases such as last mile and urban delivery. AYRO is also working on Club Car's next generation, electric light duty trucks and developing a new purpose-built vehicle with Club Car. AYRO intends to direct resources to advance the development of such purpose-built transportation solutions which AYRO believes will allow the company to address currently underserved, yet growing markets, that are application specific. AYRO believes that AYRO's all-electric transportation solutions, such as its compact, lightweight and maneuverable campus and urban vehicles, can benefit targeted geographical and vertical customers by offering lower annual/lifetime total cost of ownership for zero emissions/zero carbon footprint vehicles.
- Invest in research and development and qualification of sensors, cameras, software and mobility services seeking to enhance the value of using AYRO's electric vehicles and to derive incremental potential revenue streams for AYRO and its partner ecosystem. AYRO intends to integrate radio frequency-enabled hardware and develop data collection, communication processes and mobility services in collaboration with Autonomic. AYRO and Autonomic plan to develop a technology platform that collects vehicle health, use and location information (telematics) into its transportation mobility cloud and produces purpose-built information back to AYRO, customers and fleet operators, the subscription to which can be offered to the end customers which AYRO believes will enhance the value of using AYRO's electric vehicles and provide additional revenue stream.

Reverse Stock Split and Stock Dividend

Effective as of 6:05 pm Eastern Time on May 28, 2020, we filed an amendment to our certificate of incorporation to effect a reverse stock split of the issued and outstanding shares of our common stock, at a ratio of one share for ten shares (the "Reverse Stock Split"). Immediately following the Reverse Stock Split, we issued a stock dividend of one share of the Company's common stock for each outstanding share of common stock to all holders of record immediately following the effective time of the Reverse Stock Split (the "Stock Dividend"). The net result of the Reverse Stock Split and the Stock Dividend was a 1-for-5 reverse stock split. We made proportionate adjustments to the per share exercise price and/or the number of shares issuable upon the exercise or vesting of all stock options, restricted stock units (if any) and warrants outstanding as of the effective times of the Reverse Stock Split and the Stock Dividend in accordance with the terms of each security based on the split or dividend ratio (i.e., the number of shares issuable under such securities has been divided by ten and multiplied by two, and, in the case of stock options and warrants, the exercise or conversion price per share has been multiplied by ten and divided by two). Also, we reduced the number of shares reserved for issuance under our equity compensation plans proportionately based on the split and dividend ratios. Except for adjustments that resulted from the rounding up of fractional shares to the next whole share, the Reverse Stock Split and Stock Dividend affected all stockholders uniformly and did not change any stockholder's percentage ownership interest in the Company. All share and related option and warrant information presented in this prospectus supplement have been retroactively adjusted to reflect the reduced number of shares outstanding and the increase in share price which resulted from these actions; however, common stock share and per share amounts in the accompanying prospectus and certain of the documents incorporated by reference herein have not been adjusted to give effect to the Reverse Stock Split and the Stock Dividend.

S-9

In June 2020, we entered into a Securities Purchase Agreement with certain institutional and accredited investors, pursuant to which AYRO agreed to issue and sell in a registered direct offering an aggregate of 2,200,000 shares (the “June 2020 Shares”) of our common stock, par value \$0.0001 per share, at an offering price of \$2.50 per share, for gross proceeds of approximately \$5.5 million before the deduction of fees and offering expenses. The June 2020 Shares were offered by us pursuant to a shelf registration statement on Form S-3 (File No. 333-227858), previously filed with the Securities and Exchange Commission on October 16, 2018, and declared effective by the Securities and Exchange Commission on November 9, 2018.

On July 6, 2020, we entered into a Securities Purchase Agreement with certain institutional and accredited investors, pursuant to which AYRO agreed to issue and sell in a registered direct offering an aggregate of 3,157,895 shares (the “July 2020 Shares”) of our common stock, par value \$0.0001 per share, at an offering price of \$4.75 per share, for gross proceeds of approximately \$15.0 million before the deduction of fees and offering expenses. The July 2020 Shares were offered by us pursuant to a shelf registration statement on Form S-3 (File No. 333-227858), previously filed with the Securities and Exchange Commission on October 16, 2018, and declared effective by the SEC on November 9, 2018.

On July 23, 2020, we entered into a Securities Purchase Agreement with certain institutional and accredited investors, pursuant to which we agreed to issue and sell in a registered direct offering an aggregate of 1,850,000 shares of common stock and the option to purchase 1,387,500 additional shares (the “Additional Shares”) of common stock through October 19, 2020 (the “July 23, 2020 Shares”) of our common stock, par value \$0.0001 per share, at an offering price of \$5.00 per share, for gross proceeds of approximately \$9.25 million at the initial closing before the deduction of fees and offering expenses (the “July 23 Offering”). The July 23, 2020 Shares were offered by us pursuant to a shelf registration statement on Form S-3 (File No. 333-227858), previously filed with the Securities and Exchange Commission on October 16, 2018, and declared effective by the SEC on November 9, 2018. As of January 22, 2020, investors had exercised the Option to purchase an aggregate of 420,000 Additional Shares.

On November 22, 2020, we entered into a Securities Purchase Agreement with certain institutional and accredited investors, pursuant to which AYRO agreed to issue and sell in a registered direct offering an aggregate of 1,650,164 shares (the “November 2020 Shares”) of our common stock, par value \$0.0001 per share, at an offering price of \$6.06 per share, for gross proceeds of approximately \$10.0 million before the deduction of fees and offering expenses. The November 2020 Shares were offered by us pursuant to a shelf registration statement on Form S-3 (File No. 333-227858), previously filed with the Securities and Exchange Commission on October 16, 2018, and declared effective by the SEC on November 9, 2018.

Summary Risk Factors

An investment in shares of our common stock involves a high degree of risk. You should carefully consider the matters discussed below and in the “Risk Factors” section beginning on page S-14 of this prospectus supplement prior to deciding whether to invest in our common stock. If any of the following risks occur, our business, financial condition, results of operations, cash flows, cash available for distribution, ability to service our debt obligations and prospects could be materially and adversely affected. In that case, the market price of our common stock could decline and you may lose some or all of your investment. Some of these risks include:

- we may be acquired by a third party based on preexisting agreements;
- we have a history of losses and have never been profitable, and we expect to incur additional losses in the future and may never be profitable;
- the market for our products is developing and may not develop as expected;
- our business is subject to general economic and market conditions;
- our business, results of operations and financial condition may be adversely impacted by public health epidemics, including the recent COVID-19 outbreak;

S-10

- our limited operating history makes evaluating our business and future prospects difficult and may increase the risk of any investment in our securities;
- we may experience lower-than-anticipated market acceptance of our vehicles;
- developments in alternative technologies or improvements in the internal combustion engine may have a materially adverse effect on the demand for our electric vehicles;
- the markets in which we operate are highly competitive, and we may not be successful in competing in these industries;
- a significant portion of our revenues are derived from a single customer;
- we rely on and intend to continue to rely on a single third-party supplier for the sub-assemblies in semi-knocked-down for all of our vehicles; and
- we will be required to raise additional capital to fund our operations, and such capital raising may be costly or difficult to obtain and could dilute our stockholders’ ownership interests, and our long-term capital requirements are subject to numerous risks.

Company Information

We were incorporated in the State of Delaware on December 18, 1997 under the name “Internet International Communications Ltd.” Pursuant to a Certificate of Amendment to our Certificate of Incorporation filed on December 23, 2004, our name was changed to “WPCS International Incorporated.” On January 30, 2018, we completed a business combination with DropCar, Inc., a then privately held Delaware corporation (“Private DropCar”), in accordance with the terms of a merger agreement, pursuant to which a merger subsidiary merged with and into Private DropCar, with Private DropCar surviving as our wholly owned subsidiary (the “2018 Merger”). On January 30, 2018, immediately after completion of the 2018 Merger, we changed our name to “DropCar, Inc.” The 2018 Merger was treated as a reverse merger under the acquisition method of accounting in accordance with U.S. GAAP. In May 2020, we completed the Merger and changed our name to “AYRO, Inc.” Our principal corporate office is located at AYRO, Inc., 900 E. Old Settlers Boulevard, Suite 100, Round Rock, TX 78664, telephone 512-994-4917. Our internet address is <https://ayro.com/>. Our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and all amendments to those reports, are available to you free of charge through the “Investors” section of our web site as soon as reasonably practicable after such materials have been electronically filed with, or furnished to, the Securities and Exchange Commission. Information contained on our web site does not form a part of this prospectus supplement.

S-11

THE OFFERING

Issuer

AYRO, Inc.

Common Stock offered by us	3,333,334 shares
Shares of Common Stock to be Outstanding after this Offering	29,282,281 shares (assuming we sell the maximum number of shares of common stock offered in this offering and excluding the shares issuable upon the exercise of the Warrants to be issued in the concurrent private placement and warrants to be issued to the placement agent)
Offering Price Per Share	\$6.00 per share
Use of proceeds	We intend to use the net proceeds from this offering for working capital and other general corporate purposes, which may include acquisitions. See “Use of Proceeds” on page S-16.
Concurrent private placement of Warrants	In a concurrent private placement, we are selling to investors in this offering Warrants to purchase up to an additional 3,333,334 shares of our common stock, representing one share of our common stock for each share purchased in this offering. Each Warrant will be exercisable for one share of our common stock at an exercise price of \$6.93 per share, will be exercisable six months after the closing of this offering and will have a term of two and a half years from the date of issuance. The Warrants and the Warrant Shares are being offered pursuant to the exemptions provided in Section 4(a)(2) under the Securities Act and Rule 506(b) promulgated thereunder, and they are not being offered pursuant to this prospectus supplement and the accompanying prospectus. There is no established public trading market for the Warrants and we do not expect a market to develop. In addition, we do not intend to list the Warrants on The Nasdaq Capital Market, any other national securities exchange or any other nationally recognized trading system.
Risk factors	See the “Risk Factors” section of this prospectus supplement, the Form 10-Q and in the other documents incorporated by reference in this prospectus supplement for a discussion of factors to consider before deciding to invest in our securities.
Nasdaq Capital Market symbol	“AYRO.”

The number of shares of our common stock that will be outstanding immediately after this offering as shown above is based on 24,298,333 shares outstanding as of September 30, 2020 and includes 1,650,614 shares of common stock issued pursuant to the November 22, 2020 securities purchase agreement. The number of shares outstanding as of September 30, 2020, as used throughout this prospectus supplement, unless otherwise indicated, excludes:

- 7 shares of common stock issuable upon the conversion of outstanding shares of Series H Convertible Preferred Stock outstanding as of September 30, 2020;
- 1,825 shares of common stock issuable upon the conversion of outstanding shares of Series H-3 Convertible Preferred Stock outstanding as of September 30, 2020;
- 1,440 shares of common stock issuable upon the conversion of outstanding shares of Series H-6 Convertible Preferred Stock outstanding as of September 30, 2020;

S-12

- 1,781,488 shares of common stock issuable upon the exercise of stock options outstanding as of September 30, 2020 at a weighted average exercise price of \$4.55 per share;
- 2,024,411 shares of common stock issuable upon the exercise of warrants outstanding as of September 30, 2020 at a weighted average exercise price of \$6.17 per share;
- 1,048,385 shares of common stock reserved for future issuance under our Long-Term Incentive Plan as of September 30, 2020;
- 1,387,500 Additional Shares (the “Option”) issuable upon the exercise of the options issued pursuant to the July 21, 2020 securities purchase agreement as of September 30, 2020;
- 1,237,624 shares of common stock issuable upon the exercise of the Series A Warrants with an exercise price of \$8.09 per share issued pursuant to the November 22, 2020 securities purchase agreement;
- 825,084 shares of common stock issuable upon the exercise of the Series B Warrants with an exercise price of \$8.90 per share issued pursuant to the November 22, 2020 securities purchase agreement;
- 57,467 shares of common stock issuable upon exercise of Palladium’s warrants with an exercise price of \$6.969 per share issued to Palladium as compensation in connection with the November 22, 2020 securities purchase agreement, and 56,256 shares of common stock issuable upon exercise of Spartan Capital Securities, LLC’s warrants with an exercise price of \$6.666 per share issued to Spartan Capital Securities, LLC as compensation in connection with the November 22, 2020 securities purchase agreement;
- 3,333,334 shares of common stock issuable upon the exercise of the Warrants with an exercise price of \$6.93 per share; and
- 233,334 shares of common stock issuable upon exercise of Palladium’s warrants with an exercise price of \$6.90 per share to be issued to Palladium as compensation in connection with this offering (the “Placement Agent Warrants”).

Except as otherwise indicated, the information in this prospectus supplement is as of January 22, 2021 and assumes no exercise of the Warrants or Placement Agent Warrants, vesting of restricted stock units or exercise of warrants described above.

S-13

RISK FACTORS

Investing in our securities involves a high degree of risk. In addition to the other information contained in this prospectus supplement to the accompanying prospectus and in the documents we incorporate by reference, you should carefully consider the risks discussed below and under the heading “Risk Factors” in the Form 10-Q before making a

decision about investing in our securities. The risks and uncertainties discussed below and in the Form 10-Q are not the only ones facing us. Additional risks and uncertainties not presently known to us, or that we currently see as immaterial, may also harm our business. If any of these risks occur, our business, financial condition and operating results could be harmed, the trading price of our common stock could decline and you could lose part or all of your investment.

If you purchase securities in this offering, you will suffer immediate dilution of your investment.

The offering price of our common stock in this offering is substantially higher than the net tangible book value per share of our common stock. Therefore, if you purchase securities in this offering, you will pay a price per share of our common stock that substantially exceeds our net tangible book value per share after giving effect to this offering. Based on an offering price of \$6.00 per share of our common stock, if you purchase securities in this offering, you will experience immediate dilution of \$3.98 per share, representing the difference between the offering price per share of our common stock and our pro forma as adjusted net tangible book value per share after giving effect to this offering. Furthermore, if any of our outstanding options or warrants are exercised at prices below the offering price, or if we grant additional options or other awards under our equity incentive plans or issue additional warrants, you may experience further dilution of your investment. See the section entitled “Dilution” below for a more detailed illustration of the dilution you would incur if you participate in this offering.

Because we will have broad discretion and flexibility in how the net proceeds from this offering are used, we may use the net proceeds in ways in which you disagree.

We intend to use the net proceeds from this offering for working capital and other general corporate purposes. See “Use of Proceeds” on page S-16. We have not allocated specific amounts of the net proceeds from this offering for any of the foregoing purposes. Accordingly, our management will have significant discretion and flexibility in applying the net proceeds of this offering. You will be relying on the judgment of our management with regard to the use of these net proceeds, and you will not have the opportunity, as part of your investment decision, to assess whether the net proceeds are being used appropriately. It is possible that the net proceeds will be invested in a way that does not yield a favorable, or any, return for us. The failure of our management to use such funds effectively could have a material adverse effect on our business, financial condition, operating results and cash flow.

You may experience future dilution as a result of future equity offerings and other issuances of our securities. In addition, this offering and future equity offerings and other issuances of our common stock or other securities may adversely affect the price of our common stock.

In order to raise additional capital, we may in the future offer additional shares of common stock or other securities convertible into or exchangeable for our common stock prices that may not be the same as the price per share in this offering. We may not be able to sell shares or other securities in any other offering at a price per share that is equal to or greater than the price per share paid by investors in this offering, and investors purchasing shares or other securities in the future could have rights superior to existing stockholders. The price per share at which we sell additional shares of common stock or securities convertible into shares of common stock in future transactions may be higher or lower than the price per share in this offering. You will incur dilution upon exercise of any outstanding stock options, warrants or upon the issuance of shares of common stock under our stock incentive programs. In addition, the sale of shares of common stock in this offering and any future sales of a substantial number of shares of common stock in the public market, or the perception that such sales may occur, could adversely affect the price of our common stock. We cannot predict the effect, if any, that market sales of those shares of common stock or the availability of those shares for sale will have on the market price of our common stock.

S-14

We will be required to raise additional capital to fund our operations, and such capital raising may be costly or difficult to obtain and could dilute our stockholders’ ownership interests.

The design, manufacture, sale and servicing of vehicles is a capital-intensive business, and we need to raise additional funds to expand our operations and reach our vehicle production goals. At September 30, 2020, we had working capital of approximately \$29,900,000. Based upon our current expectations, we believe that our existing capital resources, including the capital raised prior to the Merger and the funds from this offering, will enable us to continue planned operations for at least the next 12 months. However, we cannot assure you that our plans will not change or that changed circumstances will not result in the depletion of our capital resources more rapidly than we currently anticipate. If these and our sales revenue are not sufficient to cover our cash requirements, we will need to raise additional capital, whether through the sale of equity or debt securities, the entry into strategic business collaborations, the establishment of other funding facilities, licensing arrangements, or asset sales or other means, in order to support our business plan. Such additional capital we may need may not be available on reasonable terms or at all.

Our ability to obtain the necessary financing to carry out our business plan is subject to a number of factors, including general market conditions, performance of our vehicles, market demand for our vehicles and investor acceptance of our business plan. These factors may make the timing, amount, terms and conditions of such financing unattractive or unavailable to us. If we are unable to obtain additional financing on a timely basis, we may have to curtail, delay or eliminate our development activities and growth plans, and/or be forced to sell some or all assets, perhaps on unfavorable terms, which would have a material adverse effect on our business, financial condition and results of operations, and ultimately we could be forced to discontinue our operations and liquidate, in which event it is unlikely that stockholders would receive any distribution on their shares. Further, we may not be able to continue operating if we do not generate sufficient revenues from operations needed to stay in business.

We have raised capital in the past primarily through debt and private placements of our convertible preferred stock. We may in the future pursue the sale of additional equity and/or debt securities, or the establishment of other funding facilities including asset-based borrowings. There can be no assurances, however, that we will be able to raise additional capital through such an offering on acceptable terms, or at all. Issuances of additional debt or equity securities could impact the rights of the holders of our common stock and may dilute their ownership percentage. The terms of any securities we issue in future capital transactions may be more favorable to new investors, and may include preferences, superior voting rights and the issuance of warrants or other derivative securities, which may have a further dilutive effect on the holders of any of our securities then outstanding.

The terms of debt securities we may have to issue or future borrowings we may have to incur to fund our operations could impose significant restrictions on our operations. The incurrence of indebtedness or the issuance of certain equity securities could result in increased fixed payment obligations and could also result in restrictive covenants, such as limitations on our ability to incur additional debt or issue additional equity, limitations on our ability to acquire or license intellectual property rights, and other operating restrictions that could adversely affect our ability to conduct our business.

If we raise additional funds through collaboration and licensing arrangements with third parties, it may be necessary to relinquish some rights to our technologies or our products, to grant licenses on terms that are not favorable to us, or to issue equity instruments that may be dilutive to our stockholders.

In addition, we may incur substantial costs in pursuing future capital financing, including investment banking fees, legal fees, accounting fees, securities law compliance fees, printing and distribution expenses and other costs. We may also be required to recognize non-cash expenses in connection with certain securities we issue, such as convertible notes and warrants, which may adversely impact its financial condition.

Our long-term capital requirements are subject to numerous risks.

Our long-term capital requirements are expected to depend on many potential factors, including, among others:

- the number of vehicles being manufactured and future models in development;
- the regulatory compliance and clarity of each of our vehicles;
- the progress, success and cost of our development programs, including manufacturing;

- the costs of manufacturing, developing sales, marketing and distribution channels;
- the costs of enforcing our issued patents and defending intellectual property-related claims;
- our ability to successfully grow sales, including securing strategic partner and distribution agreements and favorable pricing and market share; and
- our consumption of available resources more rapidly than currently anticipated, resulting in the need for additional funding sooner than anticipated.

S-15

USE OF PROCEEDS

We estimate that the net proceeds from the sale of the securities offered under this prospectus supplement, after deducting estimated offering expenses payable by us, will be approximately \$18.35 million, excluding the proceeds we may receive from the exercise of the Warrants issued in the concurrent private placement and the Placement Agent Warrants to be issued to Palladium as compensation.

We intend to use the net proceeds from the sale of the shares for working capital and other general corporate purposes, which may include acquisitions. The amounts and timing of our use of proceeds will vary depending on a number of factors, including the amount of cash generated or used by our operations. As a result, we will retain broad discretion in the allocation of the net proceeds of this offering.

DIVIDEND POLICY

We have never declared or paid any cash dividends on our capital stock. We currently intend to retain all available funds and any future earnings, if any, to fund the development and expansion of our business and we do not anticipate paying any cash dividends in the foreseeable future. Any future determination to pay dividends will be made at the discretion of our board of directors. Investors should not purchase our common stock with the expectation of receiving cash dividends.

PRICE RANGE OF OUR COMMON STOCK

Our common stock trades on The Nasdaq Capital Market under the symbol "AYRO." On January 22, 2021, the last reported closing sale price of our common stock on The Nasdaq Capital Market was \$6.93 per share.

S-16

DILUTION

If you invest in our common stock, your ownership interest will be diluted by the difference between the price per share you pay and the net tangible book value per share of our common stock immediately after this offering.

Our net tangible book value as of September 30, 2020, was approximately \$30,760,459, or \$1.27 per share of our common stock, based upon 24,298,333 shares of our common stock outstanding as of that date. Net tangible book value per share is determined by dividing our total tangible assets, less total liabilities, by the number of shares of our common stock outstanding as of September 30, 2020. Dilution in net tangible book value per share represents the difference between the amount per share paid by purchasers of shares of common stock in this offering and the net tangible book value per share of our common stock immediately after this offering.

Our pro forma net tangible book value as of September 30, 2020, was approximately \$42,978,750, or \$1.59 per share, after giving effect to the following issuances of common stock after September 30, 2020: (i) an aggregate of 420,000 shares of common stock upon the exercise of the Option by certain investors, at a price of \$5.00 per share, (ii) an aggregate of 36,236 shares of common stock upon the exercise of pre-funded warrants assumed in the Merger at an exercise price of \$0.000367 per share; (iii) an aggregate of 249,665 shares of common stock upon the exercise of warrants assumed in the Merger at an exercise price of \$1.3599 per share; (iv) 232,403 shares of common stock issued upon the exercise of warrant issued to Palladium for advisory services in connection with the Merger, of which 92,186 related to a private placement with an aggregate purchase price of \$850,000, at an exercise price of \$0.7423 per warrant share, 68,075 related to a private placement with an aggregate purchase price of \$1,150,000, at an exercise price of \$1.3599 per warrant share, and 72,142 related to a bridge loan, at an exercise price of \$1.1159 per warrant share; (v) an aggregate of 126,000 shares of common stock upon the exercise of warrants granted to Palladium for advisory services in connection with funding activities to purchase common stock at an exercise price of \$2.875 per share pursuant to the November 22, 2020 private placement agreement; and (vi) the sale of 1,650,164 shares of common stock for an aggregate of \$10,000,000 in a registered direct offering.

After giving effect to the sale of 3,333,334 shares of our common stock in this offering at the price of \$6.93 per share of common stock, and after deducting the placement agent fees and estimated offering expenses payable by us, our pro forma as adjusted net tangible book value as of September 30, 2020 would have been approximately \$61,328,750, or \$2.02 per share. This represents an immediate increase in net tangible book value of \$0.43 per share to existing stockholders and immediate dilution in net tangible book value of \$3.98 per share to new investors. The following table illustrates this dilution on a per share basis:

Offering price per share		\$	6.00
Historical net tangible book value per share as of September 30, 2020	\$	1.27	
Pro forma increase in net tangible book value per share	\$	0.32	
Pro forma net tangible book value per share as of September 30, 2020	\$	1.59	
Increase in net tangible book value per share attributable to this offering	\$	0.43	
Pro forma as adjusted net tangible book value per share as of September 30, 2020, after giving effect to this offering			2.02
Dilution per share to new investors	\$		3.98

The discussion and table above assume no exercise of the Warrants to purchase an aggregate of 3,333,334 shares of common stock to be issued to purchasers in a concurrent private placement or the Placement Agent Warrants to purchase an aggregate of 233,334 shares of common stock to be issued to the Palladium in this offering.

To the extent that outstanding options or warrants are exercised, you may experience further dilution. In addition, we may choose to raise additional capital due to market conditions or strategic considerations even if we believe we have sufficient funds for our current or future operating plans. To the extent that additional capital is raised through the sale of equity or convertible debt securities, the issuance of these securities could result in further dilution to our stockholders.

S-17

The above discussion and table are based upon 24,298,333 shares of common stock outstanding as of September 30, 2020 and, unless otherwise indicated, exclude:

- 7 shares of common stock issuable upon the conversion of outstanding shares of Series H Convertible Preferred Stock outstanding as of September 30, 2020;
- 1,825 shares of common stock issuable upon the conversion of outstanding shares of Series H-3 Convertible Preferred Stock outstanding as of September 30, 2020;
- 1,440 shares of common stock issuable upon the conversion of outstanding shares of Series H-6 Convertible Preferred Stock outstanding as of September 30, 2020;
- 1,781,488 shares of common stock issuable upon the exercise of stock options outstanding as of September 30, 2020 at a weighted average exercise price of \$4.55 per share;
- 2,024,411 shares of common stock issuable upon the exercise of warrants outstanding as of September 30, 2020 at a weighted average exercise price of \$6.17 per share;
- 1,048,385 shares of common stock reserved for future issuance under our Long-Term Incentive Plan as of September 30, 2020;
- 1,387,500 shares of common stock issuable upon the exercise of the Option pursuant to the July 21, 2020 securities purchase agreement, as of September 30, 2020, except for the exercise of the Option with respect to 420,000 shares of common stock;
- 1,237,624 shares of common stock issuable upon the exercise of the Series A Warrants with an exercise price of \$8.09 per share issued pursuant to the November 22, 2020 securities purchase agreement;
- 825,084 shares of common stock issuable upon the exercise of the Series B Warrants with an exercise price of \$8.90 per share issued pursuant to the November 22, 2020 securities purchase agreement;
- 57,467 shares of common stock issuable upon exercise of Palladium's warrants with an exercise price of \$6.969 per share issued to Palladium as compensation in connection with the November 22, 2020 securities purchase agreement, and 56,256 shares of common stock issuable upon exercise of Spartan Capital Securities, LLC's warrants with an exercise price of \$6.666 per share issued to Spartan Capital Securities, LLC as compensation in connection with the November 22, 2020 securities purchase agreement;
- 3,333,334 shares of common stock issuable upon the exercise of the Warrants with an exercise price of \$6.93 per share; and
- 233,334 shares of common stock issuable upon exercise of the Placement Agent Warrants with an exercise price of \$6.90 per share to be issued to Palladium as compensation in connection with this offering.

S-18

PRIVATE PLACEMENT OF WARRANTS

In a concurrent private placement, we are selling to each of the investors in this offering Warrants to purchase one share of common stock for every share of common stock purchased in the offering by each such investor. The aggregate number of Warrant Shares exercisable pursuant to the Warrants is 3,333,334. The Warrants will be exercisable at an exercise price of \$6.93 per share. The exercise price and number of Warrant Shares issuable upon the exercise of the Warrants will be subject to adjustment in the event of any stock dividend and split, reverse stock split, recapitalization, reorganization or similar transaction, as described in the Warrants.

Each Warrant shall be exercisable six months after the closing of this offering and will have a term of two and a half years from the date of issuance. A holder of Warrants will have the right to exercise the Warrants on a "cashless" basis if there is no effective registration statement registering the resale of the Warrant Shares six months after the closing date of this offering. Subject to limited exceptions, a holder of Warrants will not have the right to exercise any portion of its Warrants if the holder, together with its affiliates, would beneficially own in excess of 4.99% (or 9.99% at the election of the holder prior to the date of issuance) of the number of shares of our common stock outstanding immediately after giving effect to such exercise, provided that the holder may increase or decrease the beneficial ownership limitation up to 9.99%. Any increase in the beneficial ownership limitation shall not be effective until 61 days following notice of such change to the Company. In addition, under the securities purchase agreement, we agreed to prepare and file with the SEC a registration statement relating to the resale of the shares of common stock underlying the Warrants on or before the 75th calendar day following the date of the securities purchase agreement.

Except as otherwise provided in the Warrants or by virtue of such holder's ownership of shares of our common stock, the holders of the Warrants do not have the rights or privileges of holders of our common stock, including any voting rights, until they exercise their Warrants.

The Warrants and the Warrant Shares are being offered pursuant to the exemptions provided in Section 4(a)(2) under the Securities Act and Rule 506(b) promulgated thereunder, and they are not being offered pursuant to this prospectus supplement and the accompanying prospectus.

There is no established public trading market for the Warrants and we do not expect a market to develop. In addition, we do not intend to list the Warrants on The Nasdaq Capital Market, any other national securities exchange or any other nationally recognized trading system. All purchasers are required to be "accredited investors" as such term is defined in Rule 501(a) under the Securities Act.

S-19

PLAN OF DISTRIBUTION

We are offering 3,333,334 shares of our common stock in a registered direct offering at an offering price of \$6.00 per share of common stock to investors that are not affiliated with us. We established the price following negotiations with prospective investors and with reference to the prevailing market price of our common stock, recent trends in such price and other factors.

The shares of our common stock offered hereby are being sold directly to purchasers and not through a placement agent, underwriter or securities broker or dealer.

We agreed to pay Palladium Capital Advisors, LLC, or Palladium, a fee consisting of (i) cash compensation equal to 8.0% of the gross proceeds raised in this offering to investors introduced to us by Palladium, and (ii) compensation warrants to purchase 7% of the shares of our common stock sold in any private placement of our securities to investors introduced to us by Palladium at an exercise price of 115% of the purchase price of the shares of our common stock. The total fee payable to Palladium in connection with this offering will be a cash compensation of approximately \$1,600,000 and a compensation warrant to purchase 233,334 shares of our common stock at an exercise price of \$6.90 per share.

We have entered into a securities purchase agreement with purchasers covering the sale of the shares offered under this prospectus supplement. A copy of the form of securities purchase agreement between us and the purchasers will be included as an exhibit to a Current Report on Form 8-K that will be filed with the SEC. We currently anticipate that closing of the sale of all 3,333,334 shares of our common stock offered hereby will take place on or about January 26, 2021.

We have agreed to indemnify Palladium and specified other persons against certain liabilities relating to or arising out of Palladium's activities under its engagement letter, including for liabilities under the Securities Act, and to contribute to payments that Palladium may be required to make in respect of such liabilities.

The transfer agent and registrar for our common stock is Issuer Direct Corporation.

Our shares of common stock are listed on The Nasdaq Capital Market under the symbol "AYRO."

LEGAL MATTERS

Certain legal matters with respect to the securities offered by this prospectus supplement will be passed upon for us by Haynes and Boone, LLP.

EXPERTS

The consolidated financial statements of DropCar, Inc. as of and for the year ended December 31, 2019, incorporated herein by reference has been so included in reliance on the report of Friedman LLP, an independent registered public accounting firm, (such report includes an explanatory paragraph regarding the Company's ability to continue as a going concern), given on the authority of said firm as experts in auditing and accounting.

The consolidated balance sheet of DropCar, Inc. and Subsidiaries as of December 31, 2018, and the related consolidated statements of operations, stockholders' equity, and cash flows for the year then ended have been audited by EisnerAmper LLP, independent registered public accounting firm, as stated in their report which is incorporated herein, and includes an explanatory paragraph about the existence of substantial doubt concerning the Company's ability to continue as a going concern. Such financial statements have been incorporated herein in reliance on the report of such firm given upon their authority as experts in accounting and auditing.

The balance sheets of AYRO, Inc. as of December 31, 2019 and 2018 and the related statements of income, comprehensive income, stockholders' equity, and cash flows for the years then ended, have been audited by Plante & Moran, PLLC, independent registered public accounting firm, as stated in their report, which is incorporated herein by reference. Such financial statements have been included herein in reliance on the report of such firm given upon their authority as experts in accounting and auditing.

WHERE YOU CAN FIND MORE INFORMATION

We have filed with the SEC a registration statement on Form S-3 under the Securities Act with respect to the common stock offered by this prospectus supplement and the accompanying prospectus. This prospectus supplement, filed as part of the registration statement, does not contain all the information set forth in the registration statement and its exhibits and schedules, portions of which have been omitted as permitted by the rules and regulations of the SEC. For further information about us, we refer you to the registration statement and to its exhibits and schedules.

We file annual, quarterly and current reports and other information with the SEC. The SEC maintains an internet website at www.sec.gov that contains periodic and current reports, proxy and information statements, and other information regarding registrants that are filed electronically with the SEC.

These documents are also available, free of charge, through the Investors section of our website, which is located at <https://ayro.com/>. Information contained on our website is not incorporated by reference into this prospectus supplement or the accompanying prospectus and you should not consider information on our website to be part of this prospectus supplement or the accompanying prospectus.

INCORPORATION BY REFERENCE

The SEC allows us to "incorporate by reference" information that we file with it. Incorporation by reference allows us to disclose important information to you by referring you to those other documents. The information incorporated by reference is an important part of this prospectus supplement and the accompanying prospectus, and information that we file later with the SEC will automatically update and supersede this information. We filed a registration statement on Form S-3 under the Securities Act of 1933, as amended, with the SEC with respect to the securities being offered pursuant to this prospectus supplement and the accompanying prospectus. This prospectus supplement and the accompanying prospectus omit certain information contained in the registration statement, as permitted by the SEC. You should refer to the registration statement, including the exhibits thereto, for further information about us and the securities being offered pursuant to this prospectus supplement and the accompanying prospectus. Statements in this prospectus supplement and the accompanying prospectus regarding the provisions of certain documents filed with, or incorporated by reference in, the registration statement are not necessarily complete and each statement is qualified in all respects by that reference. Copies of all or any part of the registration statement, including the documents incorporated by reference or the exhibits, may be obtained upon payment of the prescribed rates at the offices of the SEC listed above in "Where You Can Find More Information." The documents we are incorporating by reference are:

- our Annual Report on [Form 10-K](#) for the year ended December 31, 2019, filed with the SEC on March 30, 2020, as amended by our Annual Report on [Form 10-K/A](#), filed with the SEC on April 10, 2020;
- the portions of our Definitive Proxy Statement on Schedule 14A filed with the SEC on [November 9, 2020](#) that are deemed "filed" with the SEC;
- our Quarterly Report on [Form 10-Q](#) for the quarter ended March 31, 2020, filed with the SEC on May 14, 2020, our Quarterly Report on [Form 10-Q](#) for the quarter ended June 30, 2020, filed with the SEC on August 14, 2020, and our Quarterly Report on [Form 10-Q](#) for the quarter ended September 30, 2020, filed with the SEC on November 6, 2020;
- our Current Reports on Form 8-K filed with the SEC on [February 5, 2020](#), [February 7, 2020](#) (and as amended on [February 14, 2020](#)), [February 24, 2020](#), [March 6, 2020](#), [May 15, 2020](#), [May 19, 2020](#), [May 26, 2020](#), [May 28, 2020](#), [May 29, 2020](#) (and as amended on [June 3, 2020](#)), [June 19, 2020](#), [July 8, 2020](#), [July 23, 2020](#), [September 29, 2020](#), [October 1, 2020](#), [October 16, 2020](#), [November 23, 2020](#) and [December 22, 2020](#);
- the following sections from our Registration Statement on [Form S-4](#) filed with the SEC on February 14, 2020, as amended on April 24, 2020 (the "[Form S-4](#)"): "Management of the Combined Company," "Information About AYRO," and "Information About DropCar—Legal Proceedings"; and
- the description of our common stock contained in the "Description of DropCar Capital Stock" in the [Form S-4](#).

In addition, all documents (other than current reports furnished under Item 2.02 or Item 7.01 of Form 8-K and exhibits filed in such forms that are related to such items unless such Form 8-K expressly provides to the contrary) subsequently filed by us pursuant to Section 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934, as amended, before the date our offering is terminated or completed are deemed to be incorporated by reference into, and to be a part of, this prospectus supplement and the accompanying prospectus.

Any statement contained in this prospectus supplement and the accompanying prospectus, or any free writing prospectus provided in connection with this offering or in a document incorporated or deemed to be incorporated by reference into this prospectus supplement and the accompanying prospectus will be deemed to be modified or superseded for purposes of this prospectus supplement and the accompanying prospectus to the extent that a statement contained in this prospectus supplement and the accompanying prospectus, or any free writing prospectus provided in connection with this offering or any other subsequently filed document that is deemed to be incorporated by reference into this prospectus supplement and the accompanying prospectus modifies or supersedes the statement. Any statement so modified or superseded will not be

deemed, except as so modified or superseded, to constitute a part of this prospectus supplement and the accompanying prospectus.

Upon written or oral request, we will provide you without charge, a copy of any or all of the documents incorporated by reference, other than exhibits to those documents unless the exhibits are specifically incorporated by reference in the documents. Please send requests to AYRO, Inc., 900 E. Old Settlers Boulevard, Suite 100, Round Rock, TX 78664, Attention: Curtis Smith. You should rely only on information contained in, or incorporated by reference into, this prospectus supplement and the accompanying prospectus or any free writing prospectus provided in connection with this offering. We have not authorized anyone to provide you with information different from that contained in this prospectus supplement and the accompanying prospectus or any free writing prospectus provided in connection with this offering or incorporated by reference in this prospectus supplement and the accompanying prospectus. We are not making offers to sell the securities in any jurisdiction in which such an offer or solicitation is not authorized or to anyone to whom it is unlawful to make such offer or solicitation.

S-21

Prospectus

**\$100,000,000
Common Stock
Preferred Stock
Warrants
Units**

We may offer and sell from time to time, in one or more series or issuances and on terms that we will determine at the time of the offering, any combination of the securities described in this prospectus, up to an aggregate amount of \$100,000,000.

We will provide specific terms of any offering in a supplement to this prospectus. Any prospectus supplement may also add, update, or change information contained in this prospectus. You should carefully read this prospectus and the applicable prospectus supplement as well as the documents incorporated or deemed to be incorporated by reference in this prospectus before you purchase any of the securities offered hereby.

These securities may be offered and sold in the same offering or in separate offerings; to or through underwriters, dealers, and agents; or directly to purchasers. The names of any underwriters, dealers, or agents involved in the sale of our securities, their compensation and any over-allotment options held by them will be described in the applicable prospectus supplement. See "Plan of Distribution."

In addition, the selling stockholders identified in this prospectus may offer and sell from time to time up to (i) 1,237,624 shares of our common stock underlying Series A Warrants (the "Series A Warrants") that were issued to the selling stockholders on November 24, 2020, (ii) 825,084 shares of our common stock underlying Series B Warrants (the "Series B Warrants") that were issued to the selling stockholders on November 24, 2020, (iii) 57,467 shares of our common stock underlying warrants issued to Palladium Capital Advisors, LLC ("Palladium") as part of Palladium's compensation for serving as our placement agent in connection with the November 2020 Offering (as defined below), and which have been transferred to Palladium Holdings, LLC ("Palladium Holdings"), (iv) 56,256 shares of our common stock underlying warrants issued to Spartan Capital Securities, LLC ("Spartan") as part of Spartan's compensation for serving as our placement agent in connection with the November 2020 Offering and (v) 94,044 shares of our common stock underlying warrants issued to Spartan as part of Spartan's compensation for serving as an introducing advisor in connection with a manufacturing agreement. We are registering these shares of our common stock pursuant to an agreement that we entered into with certain of the selling stockholders. The selling stockholders may offer and sell their shares of our common stock in public or private transactions, or both. These sales may occur at fixed prices, at market prices prevailing at the time of sale, at prices related to prevailing market prices, or at negotiated prices. See "Plan of Distribution" for more information on how the selling stockholders may conduct sales of their shares of our common stock. We will not receive any proceeds from any sale of shares of our common stock by the selling stockholders.

Our common stock is listed on The Nasdaq Capital Market under the symbol "AYRO." On November 24, 2020, the last reported sale price of our common stock was \$8.70 per share as reported on The Nasdaq Capital Market. We recommend that you obtain current market quotations for our common stock prior to making an investment decision. We will provide information in any applicable prospectus supplement regarding any listing of securities other than shares of our common stock on any securities exchange.

You should carefully read this prospectus, any prospectus supplement relating to any specific offering of securities, and all information incorporated by reference herein and therein.

Investing in our securities involves a high degree of risk. These risks are discussed in this prospectus under "Risk Factors" beginning on page 15 and in the documents incorporated by reference in this prospectus.

Neither the Securities and Exchange Commission (the "SEC") nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

The date of this prospectus is December 2, 2020

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement on Form S-3 that we filed with the SEC using a “shelf” registration process. Under this shelf process, we may, from time to time, sell any combination of the securities described in this prospectus in one or more offerings up to a total amount of \$100,000,000. In addition to the securities we may offer, the selling stockholders identified in this prospectus may offer and sell from time to time up to (i) 1,237,624 shares of our common stock underlying the Series A Warrants, (ii) 825,084 shares of our common stock underlying the Series B Warrants, (iii) 57,467 shares of our common stock underlying warrants issued to Palladium as part of Palladium’s compensation for serving as our placement agent in connection with the November 2020 Offering, which have been transferred to Palladium Holdings, (iv) 56,256 shares of our common stock underlying warrants issued to Spartan as part of Spartan’s compensation for serving as our placement agent in connection with the November 2020 Offering and (v) 94,044 shares of our common stock underlying warrants issued to Spartan as part of Spartan’s compensation for serving as an introducing advisor in connection with a manufacturing agreement.

This prospectus provides you with a general description of the securities we or the selling stockholders may offer. Each time we sell securities, we will provide a prospectus supplement that will contain specific information about the terms of that offering. The prospectus supplement may also add to, update or change information contained in the prospectus and, accordingly, to the extent inconsistent, information in this prospectus is superseded by the information in the prospectus supplement.

The prospectus supplement to be attached to the front of this prospectus may describe, as applicable: the terms of the securities offered; the public offering price; the price paid for the securities; net proceeds; and the other specific terms related to the offering of the securities.

You should only rely on the information contained or incorporated by reference in this prospectus and any prospectus supplement or issuer free writing prospectus relating to a particular offering. No person has been authorized to give any information or make any representations in connection with this offering other than those contained or incorporated by reference in this prospectus, any accompanying prospectus supplement and any related issuer free writing prospectus in connection with the offering described herein and therein, and, if given or made, such information or representations must not be relied upon as having been authorized by us. Neither this prospectus nor any prospectus supplement nor any related issuer free writing prospectus shall constitute an offer to sell or a solicitation of an offer to buy offered securities in any jurisdiction in which it is unlawful for such person to make such an offering or solicitation. This prospectus does not contain all of the information included in the registration statement. For a more complete understanding of the offering of the securities, you should refer to the registration statement, including its exhibits.

You should read the entire prospectus and any prospectus supplement and any related issuer free writing prospectus, as well as the documents incorporated by reference into this prospectus or any prospectus supplement or any related issuer free writing prospectus, before making an investment decision. Neither the delivery of this prospectus or any prospectus supplement or any issuer free writing prospectus nor any sale made hereunder shall under any circumstances imply that the information contained or incorporated by reference herein or in any prospectus supplement or issuer free writing prospectus is correct as of any date subsequent to the date hereof or of such prospectus supplement or issuer free writing prospectus, as applicable. You should assume that the information appearing in this prospectus, any prospectus supplement or any document incorporated by reference is accurate only as of the date of the applicable documents, regardless of the time of delivery of this prospectus or any sale of securities. Our business, financial condition, results of operations and prospects may have changed since that date.

CAUTIONARY STATEMENT REGARDING FORWARD LOOKING STATEMENTS

This prospectus and the documents incorporated by reference herein contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, or the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act. Any statements about our expectations, beliefs, plans, objectives, assumptions or future events or performance are not historical facts and may be forward-looking. These statements are often, but are not always, made through the use of words or phrases such as “anticipate,” “believe,” “contemplate,” “continue,” “could,” “estimate,” “expect,” “intend,” “may,” “plan,” “potential,” “predict,” “project,” “seek,” “should,” “target,” “will,” and “would,” or the negative of these terms, or similar expressions. Accordingly, these statements involve estimates, assumptions and uncertainties which could cause actual results to differ materially from those expressed in them. Any forward-looking statements are qualified in their entirety by reference to the factors discussed throughout this prospectus, and in particular those factors referenced in the sections entitled “Risk Factors.”

This prospectus contains forward-looking statements that are based on our management’s belief and assumptions and on information currently available to our management. These statements relate to future events or our future financial performance, and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. Numerous factors could cause our actual results to differ materially from those described in forward-looking statements, including, among other things:

- we may be acquired by a third party based on preexisting agreements;
- we have a history of losses and have never been profitable, and we expect to incur additional losses in the future and may never be profitable;
- the market for our products is developing and may not develop as expected;
- our business is subject to general economic and market conditions;
- our business, results of operations and financial condition may be adversely impacted by public health epidemics, including the recent COVID-19 outbreak;
- our limited operating history makes evaluating our business and future prospects difficult and may increase the risk of any investment in our securities;
- we may experience lower-than-anticipated market acceptance of our vehicles;
- developments in alternative technologies or improvements in the internal combustion engine may have a materially adverse effect on the demand for our electric vehicles;
- the markets in which we operate are highly competitive, and we may not be successful in competing in these industries;
- a significant portion of our revenues are derived from a single customer;
- we rely on and intend to continue to rely on a single third-party supplier for the sub-assemblies in semi-knocked-down for all of our vehicles;
- we may become subject to product liability claims, which could harm our financial condition and liquidity if we are not able to successfully defend or insure against such claims;
- the range of our electric vehicles on a single charge declines over time, which may negatively influence potential customers’ decisions whether to purchase our vehicles;

- increases in costs, disruption of supply or shortage of raw materials, in particular lithium-ion cells, could harm our business;
- our business may be adversely affected by labor and union activities;
- we will be required to raise additional capital to fund our operations, and such capital raising may be costly or difficult to obtain and could dilute our stockholders' ownership interests, and our long-term capital requirements are subject to numerous risks;
- increased safety, emissions, fuel economy, or other regulations may result in higher costs, cash expenditures, and/or sales restrictions;
- we may fail to comply with environmental and safety laws and regulations;
- our proprietary designs are susceptible to reverse engineering by our competitors;
- if we are unable to protect the confidentiality of our trade secrets or know-how, such proprietary information may be used by others to compete against us;
- should we begin transacting business in other currencies, we are subject to exposure from changes in the exchange rates of local currencies;
- we are subject to governmental export and import controls that could impair our ability to compete in international market due to licensing requirements and subject us to liability if we are not in compliance with applicable laws.
- our expected use of proceeds from this offering; and
- other factors discussed in this prospectus supplement and the accompanying prospectus and the documents incorporated by reference herein and therein, including those set forth under "Risk Factors" in our Quarterly Report on Form 10-Q filed with the SEC on November 6, 2020 (the "Form 10-Q").

We have included important factors in the cautionary statements included in this prospectus supplement and the accompanying prospectus and the documents we incorporate by reference herein and therein, including from the Form 10-Q, particularly in the "Risk Factors" sections of these documents, that we believe could cause actual results or events to differ materially from the forward-looking statements that we make. Our forward-looking statements do not reflect the potential impact of any future acquisitions, mergers, dispositions, joint ventures or investments we may make. No forward-looking statement is a guarantee of future performance.

You should read this prospectus supplement and the accompanying prospectus and the documents that we incorporate by reference herein and therein completely and with the understanding that our actual future results may be materially different from what we expect. The forward-looking statements in this prospectus supplement and the accompanying prospectus and the documents we incorporate by reference herein and therein represent our views as of the date of this prospectus supplement. We anticipate that subsequent events and developments will cause our views to change. However, while we may elect to update these forward-looking statements at some point in the future, we have no current intention of doing so except to the extent required by applicable law. You should, therefore, not rely on these forward-looking statements as representing our views as of any date subsequent to the date of this prospectus supplement.

PROSPECTUS SUMMARY

This summary provides an overview of selected information contained elsewhere or incorporated by reference in this prospectus and does not contain all of the information you should consider before investing in our securities. You should carefully read the prospectus, the information incorporated by reference and the registration statement of which this prospectus is a part in their entirety before investing in our securities, including the information discussed under "Risk Factors" in this prospectus and the documents incorporated by reference and our financial statements and notes thereto that are incorporated by reference in this prospectus. Some of the statements in this prospectus and the documents incorporated by reference herein constitute forward-looking statements that involve risks and uncertainties. See information set forth under the section "Cautionary Statement Regarding Forward-Looking Statements."

On May 28, 2020, pursuant to the previously announced Agreement and Plan of Merger, dated December 19, 2019 (the "Merger Agreement"), by and among AYRO, Inc., a Delaware corporation previously known as DropCar, Inc. ("we," "us," "our" or the "Company"), ABC Merger Sub, Inc., a Delaware corporation and a wholly owned subsidiary of the Company ("Merger Sub"), and AYRO Operating Company, Inc., a Delaware corporation previously known as AYRO, Inc. ("AYRO Operating"), Merger Sub was merged with and into AYRO Operating, with AYRO Operating continuing after the merger as the surviving entity and a wholly owned subsidiary of the Company (the "Merger"). In this prospectus, unless the context otherwise requires, references to "we," "us," "our," "our company" and "AYRO" refer to AYRO, Inc. and its subsidiaries. References to "DropCar" refer to DropCar, Inc. prior to the Merger.

Overview

We design and manufacture compact, sustainable electric vehicles for closed campus mobility, urban and community transport, local on-demand and last mile delivery, and government use. Our three- and four-wheeled purpose-built electric vehicles are geared toward commercial customers including universities, last mile delivery services and food service providers.

Our Products

AYRO vehicles provide the end user an environmentally friendly alternative to internal combustion engine vehicles (cars powered by gasoline or diesel oil), for light duty uses, including low-speed logistics, maintenance and cargo services, at a lower total cost.

AYRO Club Car 411

The AYRO Club Car 411 (the "AYRO 411 Fleet") is a family of electric, four-wheel compact, light-duty utility trucks sold exclusively through AYRO's contracted partner, Club Car, as part of a global multi-year sustainability solution development, sales and marketing agreement. Each of the AYRO 411 Fleet of vehicles is classified as a street legal low speed vehicle ("LSV"), defined as a four-wheeled motor vehicle, other than an all-terrain vehicle, that is capable of reaching speeds of at least 20 miles per hour ("mph") but not greater than 25 mph, with a gross vehicle weight rating of less than 3,000 pounds and meets the safety standards in Title 49 of the U.S. Code of Federal Regulations, section 571.50.

The AYRO 411 Fleet has an expected range of up to 50 miles and a maximum speed range of 25 mph (or 40 kilometers per hour), in line with the United States Department of Transportation ("USDOT") regulations for low-speed vehicles and with most state statutes, which typically limit the speed of LSVs to 25 mph on 35 mph posted roads. The current AYRO 411 Fleet includes:

- the 411 Flatbed truck, which provides drivers with considerable versatility of use;
- the 411 Pickup truck, which is ideal for hauling; and
- the 411 Cargo Van Box, a fully enclosed cargo box.

The AYRO 411 Fleet has zero gas emissions, a recharge capability of up to six to eight hours using 120V/20A outlets and has a payload capacity of up to 1,100 pounds. AYRO estimates that the AYRO 411 Fleet's operating costs are approximately 50% lower per year compared to similarly sized gas-powered trucks/vans. Vehicles in the AYRO 411 Fleet are equipped with:

- reinforced steel (coated) chassis houses the motor, controller and enclosed battery operating system;
- auto-grade suspension with Transverse Leaf Spring on the front and horizontal spring with coil-over shock in the rear;
- power assisted steering;
- street legal if registered/licensed per standard vehicles by dealer or user;
- multi-point, anchored DOT compliant safety harnesses for driver and passenger;
- a standard back-up camera (appears on larger LCD display – see below);
- a standard 7-inch (17.7 centimeter) LCD display;
- a standard manual parking break;
- four-wheel all-disk braking system and corrosion resistant body panels; and
- heating and ventilation systems in the cabin of the truck.

With its low speed, zero-emissions, and cost-effectiveness, the AYRO 411 Fleet seeks to satisfy the needs of a variety of customers, including university and college campuses, retailers, airports and ports, business parks and campuses, warehouses, production facilities, resorts and theme parks, apartments and condos.

AYRO 311 Autocycle

The AYRO 311 Autocycle (the "AYRO 311") is a compact, light-duty street-legal electric vehicle with a maximum speed of up to 50 mph. Strategically engineered with USDOT-compliant automotive parts, the AYRO 311 is built to a high-performance standard, has standard automotive controls and does not require any special licenses or conditions in order to drive. Like the AYRO 411 Fleet, it has a range of up to 50 miles, has zero gas emissions and a recharge capability of up to six to eight hours using 120V/20A and its operating costs are estimated to be approximately 50% lower per year compared to gas-powered vehicles.

AYRO 311's equipment includes:

- a standard back-up camera, a standard 7-inch (17.7 centimeter) LCD display;
- a standard manual parking break; enclosed and corrosion resistant body panels;
- heating, ventilation, and fan systems in the cabin of the vehicle;
- standard automotive controls including foot accelerator and brake pedals;
- a USDOT-approved windshield, a windshield wiper and washer system;
- a driver's 3-point safety belt and a passenger's 4-point safety belt; warning flashers;
- AM and FM radio;

- Bluetooth capabilities;
- a GPS system; and
- an SD card slot.

With its automotive-style controls (a steering wheel and foot pedals), the AYRO 311 drives like a regular car and accommodates the average consumer and is designed for neighborhood food delivery, last mile delivery, parking enforcement and urban dwellers. More specifically, this product targets urban dwellers due to its compact size in dense urban environments. The AYRO 311 also targets commercial customers, such as neighborhood food and product delivery fleets, gated communities, country clubs, and colleges and universities due to its highly customizable appearance with a range of brand and logo wraps, spot graphics, and color options (glossy white or athletic red), its compact design and ability to go virtually anywhere. The AYRO 311 also targets municipalities and facilities as customers for use in parking enforcement, special events, and public safety.

AYRO 511 (Concept)

AYRO is currently investigating and researching the concept vehicle, the AYRO 511, a new full-time four-wheel drive electric vehicle. The AYRO 511 is expected to have 13 inches (33 centimeters) of clearance and enhanced stability in a diverse array of terrains and seasons. Additionally, the truck will be designed to operate with an automotive-style drive system, cutting driving noise down to a minimum.

Additional Models and Vehicles

AYRO is currently in discussions with Club Car regarding a variety of new models and vehicles.

Manufacturing and Supply Chain

Manufacturing Agreement with Cenntro

In 2017, AYRO partnered with Cenntro Automotive Group, Ltd. (“Cenntro”), which operates a large electric vehicle factory in the automotive district in Hangzhou, China, in a supply chain agreement to provide sub-assembly manufacturing services. Through the partnership, Cenntro acquired nineteen percent (19%) of AYRO’s common stock. Cenntro beneficially owned approximately 13.7% as of December 31, 2019. Cenntro owns the design of the AYRO 411 Fleet vehicles and has granted AYRO an exclusive license to purchase the AYRO 411 Fleet vehicles for sale in North America.

Under AYRO’s Manufacturing License Agreement with Cenntro (the “MLA”), in order for AYRO to maintain its exclusive territorial rights pursuant to the MLA, for the first three years after the effective date of April 27, 2017, AYRO must meet the following minimum sale requirements: (i) a minimum of 300 units sold by the first anniversary of the effective date of the MLA; (ii) a minimum of 800 units sold by the second anniversary of the effective date of the MLA; and (iii) a minimum of 1,300 units sold by the third anniversary of the effective date of the MLA. Cenntro will determine the minimum sale requirements for the years thereafter. Should any event of default occur, the other party may terminate the MLA by providing written notice to the defaulting party, who will have 90 days from the effective date of the notice to cure the default. Unless waived by the party providing notice, a failure to cure the default(s) within the time 90-day time frame will result in the automatic termination of the MLA. Events of default under the MLA include a failure to make a required payment when due, the insolvency or bankruptcy of either party, the subjection of either party’s property to any levy, seizure, general assignment for the benefit of creditors, and a failure to make available or deliver the products in the time and manner provided for in the MLA.

Cenntro is also being used to perform sub-assembly manufacturing of the AYRO 311. AYRO imports semi-knocked-down vehicle kits from Cenntro for both the 411 and 311 models. The vehicle kits are received through shipping containers by AYRO’s assembly facility in Round Rock, Texas. The vehicles are then assembled with limited customization requirements per order. As such, the partnership with Cenntro allows AYRO to scale manufacturing operations without significant investment in capital expenditures, and therefore bring products to market rapidly.

AYRO currently occupies 24,000 square feet of manufacturing space configured in a “U”-shaped assembly line with multiple stations per vehicle. AYRO’s manufacturing space allows multiple assembly lines plus adequate raw material storage. The chart below indicates the number of vehicles and assembly time required for each. Assembly time also includes USDOT quality checks and testing as the final step of the assembly process. Additionally, the number of vehicles indicated below assumes a single shift. AYRO believes that its volumes could be doubled per line by adding a second shift that would operate from 4pm to midnight.

Vehicle	Assembly time (Man-Hours)	Vehicles assembled per month
AYRO 411	12.0	200
AYRO 311	14.0	200
AYRO 311x (estimated)	15.0	200

Master Procurement Agreement with Club Car

In March 2019, AYRO entered into a five-year Master Procurement Agreement (the “MPA”) with Club Car for the sale of AYRO’s four-wheeled vehicles. The MPA grants Club Car the exclusive right to sell the AYRO 411 Fleet in North America, provided that Club Car orders a mutually agreed on number of AYRO vehicles per year. Under the terms of the MPA, AYRO receives orders from Club Car dealers for vehicles of specific configurations, and AYRO invoices Club Car once the vehicle has shipped. The MPA has an initial term of five years commencing January 1, 2019 and may be renewed by Club Car for successive one-year periods upon 60 days’ prior written notice. AYRO also agreed to collaborate with Club Car on developing new products similar to the AYRO 411 Fleet and improvements to existing products, and AYRO granted Club Car a right of first refusal to purchase similar commercial utility vehicles which AYRO develops during the term of the MPA. AYRO is currently engaged in discussions with Club Car to develop additional products to be sold by Club Car in Europe and Asia, but there can be no assurance that these discussions will be successful. Pursuant to the MPA, AYRO also granted Club Car a right of first refusal in the event that AYRO intends to sell 51% or more of its assets or equity interests, which right of first refusal is exercisable for a period of 45 days following AYRO’s delivery of an acquisition notice to Club Car.

Manufacturing Services Agreement with Karma

On September 25, 2020, we entered into a Master Manufacturing Services Agreement (the “Karma Agreement”) with Karma Automotive LLC (“Karma”), pursuant to which Karma agreed to provide certain manufacturing services for the production of our vehicles. The initial statement of work provides that Karma will perform assembly of a certain quantity of our 411 product and provide testing, materials management and outbound logistics services. For such services in the initial statement of work, we agreed to pay \$1,160,800 to Karma, of which (i) \$520,000 was paid at closing and (ii) \$640,000 is due and payable five months following the satisfaction of certain production requirements.

The Karma Agreement expires (i) 12 months from the start of volume production of the vehicles or (ii) such earlier time as the parties mutually agree in writing. In addition, Karma may terminate the Karma Agreement at any time, without cause, upon twelve months’ prior written notice. We may terminate the Karma Agreement, without cause, upon six months’ prior written notice.

Strategic Partnership with Autonomic

Additionally, AYRO is developing a technology platform that can be deployed to any vehicle as additional value-add subscriptions offered directly to the end customer. AYRO has partnered with Autonomic, a wholly-owned subsidiary of Ford Smart Mobility LLC, to collect vehicle health, use and location information (telematics) in its transportation mobility cloud and produce purpose-built information back to AYRO, customers and fleet operators, generating an additional revenue stream. Working together, the companies aim to develop a range of services to enable mobility applications for AYRO’s line of vehicles which power everything from moving products and equipment to people and last-mile delivery services.

Engineering Development and Production Process Validation

As a baseline, AYRO's product development and engineering efforts align with the Society of Automotive Engineering ("SAE") J2258_201611 standards for Light Utility Vehicles. The J2258 standard provides key compliance criteria for Gross Vehicle Weight Rating ("GVWR"), occupant protection and safety restraint systems, lateral and longitudinal stability, center of gravity and operating controls, among others. AYRO's test validation and inspection standards follow Federal Motor Vehicle Safety Standards ("FMVSS") 49 CFR 571.500 for LSVs with the additions of SAE J585 and FMVSS 111 for rear visibility, lighting, signaling, reflectors, changes in direction of movement, back-up camera response timing and field of view.

AYRO's development standards and test compliance validation processes are supported by a variety of test documentation including supplier self-reporting, third party laboratory test reports and regional compliance validation with the California Air Resource Board ("CARB") for speed, range and environmental performance.

AYRO's production system follows a lean, cell-based, manufacturing model. The process involves the following five sequential cells: (1) cab preparation, (2) chassis preparation, (3) system integration and testing, (4) final assembly and integration test, and (5) QA & FMVSS Compliance. Assembly quality and shift efficiency metrics are measured daily by AYRO production staff at end of every shift.

AYRO maintains a certification and compliance check list for each vehicle. AYRO's three and four-wheeled vehicles use an automotive style steering wheel, turn signal stalk, headlight, running light and reverse light controls, a multi-speed windshield wiper and washer and an accelerator and brake pedal consistent with controls employed in standard passenger cars. As the AYRO 311 and AYRO 411 are direct drive vehicles, there is no stick shift, clutch, paddle shift, or belt driven CSV (continuously variable) transmission needed to operate the vehicles within the intended torque band and speed range. Accordingly, AYRO's vehicles are homologated under existing U.S., state and local LSV requirements and the corresponding motorcycle and autocyte requirements under 49 CFR 571.3.

The Industry and AYRO's Competitive Position

The U.S. electric vehicle market is expected by many commentators to increase dramatically over the next decade, driven by factors such as the country's increasingly urbanized population, the significant cost of owning and operating gas-powered vehicles, the growing global awareness of the damaging effects of pollution and greenhouse gas emissions, and rising investment in clean technology and supporting infrastructure.

A segment of the electric vehicle market, low speed electric vehicles ("LSEVs")—which are LSVs but cannot be powered by gas or diesel fuel—are growing increasingly popular as eco-friendly options for consumers and commercial entities. LSEVs run on electric motors fueled by a variety of different batteries, such as lithium ion, molten salt, zinc-air and various nickel-based designs.

In 2017, the global LSEV market was valued at approximately \$2,395 million, according to Allied Market Research, and global sales of LSEVs have only continued to grow over the past two years, with sales expected to reach 1.5 million units in 2021. According to the Low Speed Electric Vehicles Market report conducted by Market Study Report, over the next five years, the LSEV market is expected to register a 10.8% compound annual growth rate in terms of revenue, with the global market size expected to reach \$8,870 million by 2024, up from \$4,790 million in 2019.

Trends Driving the Need for Electric Vehicles

Trends such as increasingly stringent government regulations aimed toward reducing vehicle emissions, growing urban populations, and social pressure to adopt sustainable lifestyles all create a demand for more ecologically and economically sustainable methods of transportation. This demand continues to spur technological advancements and LSEV market growth.

Incentivizing Effect of Government Rules and Regulations. Expanding rules and regulations governing vehicle emissions have contributed to growth in the LSEV market. In particular, the U.S., Germany, France, and China have implemented stringent laws and regulations governing vehicular emissions, requiring automobile manufacturers to use advanced technologies to combat high-emission levels in vehicles. To incentivize clean-energy use, many governments are increasingly instituting substantial incentives for consumers to purchase electric vehicles, such as:

- tax credits, rebates, and exemptions; reduced vehicle registration fees;
- reduced utility rates; and
- parking incentives.

Further, governments are establishing infrastructure benchmarks to support the growth of the electric vehicle industry.

A prime example of government involvement in developing the electric vehicle industry, a recent New Jersey bill aims to have 330,000 electric vehicles on state roads by the end of 2024 and a total of 2 million by 2035. To facilitate this goal, the bill calls for the state to have 400 fast-charging stations and another 1,000 slow-charging stations, both by 2025. Thirty percent of all apartment, condo and townhouse developments in New Jersey would need to have chargers by 2030, while half of all franchise hotels would need to have chargers by 2050. As the network of government rules and regulations expands, so too should investment in the research and development of LSEV technology and infrastructure.

Urbanization on the Rise. According to the U.N., in 2015, 55% of the world's population was urban, and by 2050, it is estimated that this percentage will increase to 68%. As the world population continues to urbanize, a growing number of consumers are expected to seek alternatives, such as LSEVs, to internal combustion engine vehicles in order to save money and space in congested city streets.

Increasing Sense of Social Responsibility. In tandem with governmental efforts to curb pollution and encourage more sustainable transportation practices, consumers face increasing social pressure to adopt eco-friendly lifestyles. As this demand grows, the LSEV market should continue to develop.

Target Markets

The multipurpose applications and clean energy use of LSEVs make them popular across a wide array of industries and customers, including college and university campuses, resorts and hotels, corporate parks, hospitals, warehouses, individual consumers, last mile delivery service providers, municipalities, and the food service industry. A number of these market segments, and AYRO's competitive position within them, are discussed in greater detail below.

Universities. LSEVs are growing increasingly common on university and college campuses due to a number of factors. LSEVs fulfill the versatile needs of campuses better than golf carts or standard combustion vehicles because, not only does LSEVs' low speed threshold promote safer driving among pedestrians, the vehicles are also street legal with on-road safety features, enabling drivers to drive on roads and free up pedestrian space along sidewalks and smaller pathways. Additionally, the significantly reduced carbon imprint of LSEVs compared to internal combustion engine vehicles appeal to environmentally aware students and professors looking to promote environmental sustainability on campus. By transitioning from internal combustion engine vehicles to LSEVs, campuses should be able to reduce significantly the costs spent on fuel, oil, parts, and maintenance. AYRO's vehicles, particularly the AYRO 411 Fleet, provide all of these benefits to university and college campuses. AYRO estimates that in the U.S., there are over 1,800 higher education campuses with over 10,000 students each with over 400 on-campus vehicles that are ideal targets for the AYRO 411 Fleet as campuses transition from fossil-fueled campus fleet vehicles to EVs.

Food Delivery Services. As the millennial generation assumes a more substantial portion of the consumer population, customers increasingly favor convenience and timeliness, spurring dramatic growth in online ordering and delivery services across a wide swath of industries, including food delivery and restaurant ordering services. Food delivery sales are anticipated to increase over 20% per year, culminating in an expected \$365 billion worldwide by 2030, according to Upserve. Upserve further estimates that approximately 60% of U.S. consumers report that they order delivery or takeout at least once a week. Within the next decade, potentially over 40% of restaurant sales will be attributable to delivery services, according to Morgan Stanley.

In its market research, AYRO has determined that delivery services, including restaurants using the AYRO 311 as a delivery vehicle rather than outsourcing delivery to third party services, have reduced their delivery costs by up to 50%. Delivery service companies using the AYRO 311 as an in-house delivery vehicle rather than outsourcing delivery are also better equipped to manage the customer experience and maintain customer relationships and data.

Last Mile Delivery Service. Retail focus on last mile delivery—the movement of goods from a transportation hub to the final delivery destination—has grown exponentially over the past few years due to the rise in online ordering and e-commerce. Consumers’ ability to pick and choose products based on delivery speed and availability makes last mile delivery a key differentiator among retailers. Last mile delivery provides retailers timelier and more convenient delivery options not offered by the main three shipping services in the U.S. (the U.S. Postal Service, FedEx, and UPS). Additionally, given the increasing designation of low emission zones in urban centers, retailers will need to continue to deploy eco-friendly vehicles. Retailers will likely expand the use of LSEV fleets to make deliveries in low emission zones due to their zero gas emissions and lower price than competing electric vehicles. AYRO expects that the AYRO 411 Fleet, with its variety of cargo bed options ideal for hauling and delivery and its low price point, should stand out among the competition. Additionally, the AYRO 311 autocycle is ideal for short point-destination deliveries for smaller packages and urgent urban courier-style deliveries.

Municipalities. As more city governments adopt regulations geared toward reducing pollution from vehicles, cities are increasingly looking to replace their municipal vehicles with zero-emission fleets. Such fleet overhauls, however, can be costly. LSEVs are a cheaper and more practical option for cities daunted by the cost of standard electronic vehicles. AYRO’s LSEVs have both on and off-road capabilities, making them particularly versatile for municipalities.

On-Road and Personal Transportation. LSEVs offer a feasible and practical method of transportation, especially in urban centers. Because AYRO’s LSEVs are street-legal, they offer city dwellers a more sustainable, cost-efficient, easily maneuverable, compact and light weight option compared to internal combustion engine vehicles. AYRO LSEVs also offer a variety of specifications and equipment, meaning that consumers do not have to sacrifice comfort or convenience.

Market Considerations

AYRO primarily focuses on the LSEV North American market, which is highly competitive and constitutes 28% of the global LSEV market according to Wise Guy Reports. AYRO has examined various considerations with regard to the AYRO’s market impact, including cost comparisons to existing vehicles in the market, market validation and target commercial markets.

Competition

The worldwide automotive market, particularly for economy and alternative fuel vehicles, is highly competitive, and AYRO expects it will become even more so in the future. Other manufacturers have entered the three-wheeled vehicle market, and AYRO expects additional competitors to enter this market within the next several years. As the LSEV market grows increasingly saturated, AYRO expects to experience significant competition. The most competitive companies in the global LSEV market include HDK Electric Vehicles, Bradshaw Electric Vehicles, Textron Inc., Polaris Industries, Yamaha Motors Co. Ltd., Ingersoll Rand, Inc., Speedway Electric, AGT Electric Cars, Bintelli Electric Vehicles and Ligier Group. AYRO’s relationship with Club Car, a division of Ingersoll Rand, Inc., gives AYRO a strong competitive advantage. Despite this fact, many of the other competitors listed above have significantly greater financial, technical, manufacturing, marketing and other resources than AYRO and may be able to devote greater resources to the design, development, manufacturing, distribution, promotion, sale and support of their products. Many of these competitors modify an existing fossil-fuel powered golf cart to meet utility and commercial needs for an all-electric commercial utility vehicle, unlike the AYRO 411 Fleet, which was engineered, designed and produced as a portfolio of electric, light duty trucks and vans.

When compared to internal combustion engine vehicles, AYRO's vehicles are significantly more attractive based on tax, title and license fees and CO2 emissions. Compared to a standard Ford F150 (gasoline) pickup truck (2.7 liter), the AYRO 411 Fleet provides an approximate 49% reduction in operating expenses and an approximate 100% reduction in CO2 emissions (if renewed energy is used to charge the AYRO vehicles, an increasing trend for most higher education campuses and government facilities). Compared to a Nissan Versa (gasoline) four cylinder (1.6 liter) sub-compact car, the AYRO 311 provides a similarly drastic reduction in operating expenses and CO2 emissions. Additionally, the AYRO 311's starting manufacturer suggested retail price ("MSRP") is \$9,999. Arcimoto and SOLO market three-wheeled electric vehicles with starting MSRPs of \$19,900 and \$15,888, respectively.

AYRO's most closely-matched competitor in the LSEV industry is Polaris Gem ("Gem"), an LSEV manufacturer that manufactures products designed for applications similar to AYRO's. Gem offers three passenger vehicle models and two utility vehicle models. Although Gem's GEM el XD model, which is similar to vehicles in the AYRO 411 Fleet, has a lower starting MSRP than the AYRO 411 Fleet, the GEM el XD would need to be highly configured to match the standard AYRO 411 Fleet features and, with such configuration, would exceed the base MSRP of each vehicle in the AYRO 411 Fleet. The AYRO 411 Fleet has a greater pick-up bed and van box capacity than the GEM el XD, in addition to 13% more horsepower and a 48% better turning radius, allowing drivers of the AYRO 411 Fleet to execute maneuvers in tighter spaces than they would using the GEM el XD.

AYRO expects competition in its industry to intensify in the future in light of increased demand for alternative fuel vehicles, continuing globalization and consolidation in the worldwide automotive industry. Factors affecting competition include product quality and features, innovation and development time, pricing, reliability, safety, customer service and financing terms. Increased competition may lead to lower vehicle unit sales and increased inventory, which may result in downward price pressure and may adversely affect AYRO's business, financial condition, operating results and prospects. AYRO's ability to successfully compete in its industry will be fundamental to its future success in existing and new markets and its market share. There can be no assurances that AYRO will be able to compete successfully in its markets. If AYRO's competitors introduce new cars or services that compete with or surpass the quality, price or performance of AYRO's vehicles or services, AYRO may be unable to satisfy existing customers or attract new customers at the prices and levels that would allow AYRO to generate attractive rates of return on its investment. Increased competition could result in price reductions and revenue shortfalls, loss of customers and loss of market share, which could harm AYRO's business, prospects, financial condition and operating results.

AYRO's Strategy

AYRO's goal is to continue to develop and commercialize automotive-grade, sustainable electric transportation solutions for the markets and use cases that AYRO believes can be well served by AYRO's purpose-built, street legal and road-ready electric vehicles. AYRO's business strategy includes the following:

- Leverage the relationship with Club Car to expand AYRO's product portfolio and increase its customer base. AYRO is working on and has plans to expand its current electric transportation solutions portfolio in collaboration with Club Car. This plan includes next generation light duty trucks and new purpose-driven electric vehicles. Additionally, AYRO is collaborating with Club Car's sales and marketing teams to expand adoption of its vehicles in the United States and intends to expand its geographical footprint within Club Car's global distribution and channel network.

- Rapidly scale up AYRO's operations to achieve growth. AYRO intends to direct resources to scale up AYRO's operations, which AYRO believes is needed to increase its revenue, including expanding and optimizing its automotive component supply chain and AYRO's flow-based assembly operations in Round Rock, Texas. Further, AYRO plans to expand sales territories and add distribution channels, forming strategic partnerships to build-out its whole product offering and to access additional sales channels or to accelerate product adoption for particular vertical markets, building AYRO's brand, and increasing manufacturing capacity to produce higher volumes of electric vehicles.
- Identify defined markets and use cases which are currently under-served but represent sizable market opportunity sub-sets of the electric vehicle market and focus development efforts on road-ready autocycles and other purpose-built electric vehicles to address such markets. AYRO is currently developing a new series of automotive-grade autocycles, engineered and optimized to meet targeted use cases such as last mile and urban delivery. AYRO is also working on Club Car's next generation, electric light duty trucks and developing a new purpose-built vehicle with Club Car. AYRO intends to direct resources to advance the development of such purpose-built transportation solutions which AYRO believes will allow the company to address currently underserved, yet growing markets, that are application specific. AYRO believes that AYRO's all-electric transportation solutions, such as its compact, lightweight and maneuverable campus and urban vehicles, can benefit targeted geographical and vertical customers by offering lower annual/lifetime total cost of ownership for zero emissions/zero carbon footprint vehicles.
- Invest in research and development and qualification of sensors, cameras, software and mobility services seeking to enhance the value of using AYRO's electric vehicles and to derive incremental potential revenue streams for AYRO and its partner ecosystem. AYRO intends to integrate radio frequency-enabled hardware and develop data collection, communication processes and mobility services in collaboration with Autonomic. AYRO and Autonomic plan to develop a technology platform that collects vehicle health, use and location information (telematics) into its transportation mobility cloud and produces purpose-built information back to AYRO, customers and fleet operators, the subscription to which can be offered to the end customers which AYRO believes will enhance the value of using AYRO's electric vehicles and provide additional revenue stream.

Reverse Stock Split and Stock Dividend

Effective as of 6:05 pm Eastern Time on May 28, 2020, we filed an amendment to our certificate of incorporation to effect a reverse stock split of the issued and outstanding shares of our common stock, at a ratio of one share for ten shares (the "Reverse Stock Split"). Immediately following the Reverse Stock Split, we issued a stock dividend of one share of the Company's common stock for each outstanding share of common stock to all holders of record immediately following the effective time of the Reverse Stock Split (the "Stock Dividend"). The net result of the Reverse Stock Split and the Stock Dividend was a 1-for-5 reverse stock split. We made proportionate adjustments to the per share exercise price and/or the number of shares issuable upon the exercise or vesting of all stock options, restricted stock units (if any) and warrants outstanding as of the effective times of the Reverse Stock Split and the Stock Dividend in accordance with the terms of each security based on the split or dividend ratio (i.e., the number of shares issuable under such securities has been divided by ten and multiplied by two, and, in the case of stock options and warrants, the exercise or conversion price per share has been multiplied by ten and divided by two). Also, we reduced the number of shares reserved for issuance under our equity compensation plans proportionately based on the split and dividend ratios. Except for adjustments that resulted from the rounding up of fractional shares to the next whole share, the Reverse Stock Split and Stock Dividend affected all stockholders uniformly and did not change any stockholder's percentage ownership interest in the Company. All share and related option and warrant information presented in this prospectus supplement have been retroactively adjusted to reflect the reduced number of shares outstanding and the increase in share price which resulted from these actions; however, common stock share and per share amounts in the accompanying prospectus and certain of the documents incorporated by reference herein have not been adjusted to give effect to the Reverse Stock Split and the Stock Dividend.

Registered Direct Offerings

In June 2020, we entered into a Securities Purchase Agreement with certain institutional and accredited investors, pursuant to which AYRO agreed to issue and sell in a registered direct offering an aggregate of 2,200,000 shares (the "June 2020 Shares") of our common stock, par value \$0.0001 per share, at an offering price of \$2.50 per share, for gross proceeds of approximately \$5.5 million before the deduction of fees and offering expenses. The June 2020 Shares were offered by us pursuant to a shelf registration statement on Form S-3 (File No. 333-227858), previously filed with the SEC on October 16, 2018, and declared effective by the SEC on November 9, 2018.

On July 6, 2020, we entered into a Securities Purchase Agreement with certain institutional and accredited investors, pursuant to which AYRO agreed to issue and sell in a registered direct offering an aggregate of 3,157,895 shares (the “July 2020 Shares”) of our common stock, par value \$0.0001 per share, at an offering price of \$4.75 per share, for gross proceeds of approximately \$15.0 million before the deduction of fees and offering expenses. The July 2020 Shares were offered by us pursuant to a shelf registration statement on Form S-3 (File No. 333-227858), previously filed with the SEC on October 16, 2018, and declared effective by the SEC on November 9, 2018.

On July 21, 2020, we entered into a Securities Purchase Agreement with certain institutional and accredited investors, pursuant to which we agreed to issue and sell in a registered direct offering an aggregate of 1,850,000 shares of common stock and the option to purchase 1,387,500 additional shares (the “Additional Shares”) of common stock through October 19, 2020, which has been extended through October 19, 2021, (the “July 23, 2020 Shares”) of our common stock, par value \$0.0001 per share, at an offering price of \$5.00 per share, for gross proceeds of approximately \$9.25 million at the initial closing before the deduction of fees and offering expenses (the “July 23 Offering”). The July 23, 2020 Shares were offered by us pursuant to a shelf registration statement on Form S-3 (File No. 333-227858), previously filed with the SEC on October 16, 2018, and declared effective by the SEC on November 9, 2018. As of November 24, 2020, investors had exercised the option to purchase an aggregate of 420,000 Additional Shares.

On November 22, 2020, we entered into a Securities Purchase Agreement with certain institutional and accredited investors, pursuant to which we agreed to issue and sell in a registered direct offering an aggregate of 1,650,164 shares (the “November 2020 Shares”) of our common stock, par value \$0.0001 per share, at an offering price of \$6.06 per share, for gross proceeds of approximately \$10.0 million at the initial closing before the deduction of fees and offering expenses. The November 2020 Shares were offered by us pursuant to a shelf registration statement on Form S-3 (File No. 333-227858), previously filed with the SEC on October 16, 2018, and declared effective by the SEC on November 9, 2018.

In a concurrent private placement, we agreed to issue to the investors purchasing the November 2020 Shares Series A Warrants to purchase up to 1,237,624 shares of our common stock and Series B Warrants to purchase up to 825,084 shares of our common stock. The Series A Warrants are exercisable immediately upon issuance and terminate six months following issuance and are exercisable at an exercise price of \$8.09 per share, subject to adjustment as set forth therein. The Series B Warrants are exercisable immediately upon issuance and terminate five years following issuance and are exercisable at an exercise price of \$8.90 per share, subject to adjustment as set forth therein.

Summary Risk Factors

An investment in shares of our common stock involves a high degree of risk You should carefully consider the matters discussed below and in the “Risk Factors” section beginning on page 15 of this prospectus prior to deciding whether to invest in our common stock. If any of the following risks occur, our business, financial condition, results of operations, cash flows, cash available for distribution, ability to service our debt obligations and prospects could be materially and adversely affected. In that case, the market price of our common stock could decline and you may lose some or all of your investment. Some of these risks include:

- we may be acquired by a third party based on preexisting agreements;
- we have a history of losses and have never been profitable, and we expect to incur additional losses in the future and may never be profitable;
- the market for our products is developing and may not develop as expected;
- our business is subject to general economic and market conditions;

- our business, results of operations and financial condition may be adversely impacted by public health epidemics, including the recent COVID-19 outbreak;
- our limited operating history makes evaluating our business and future prospects difficult and may increase the risk of any investment in our securities;
- we may experience lower-than-anticipated market acceptance of our vehicles;
- developments in alternative technologies or improvements in the internal combustion engine may have a materially adverse effect on the demand for our electric vehicles;
- the markets in which we operate are highly competitive, and we may not be successful in competing in these industries;
- a significant portion of our revenues are derived from a single customer;
- we rely on and intend to continue to rely on a single third-party supplier for the sub-assemblies in semi-knocked-down for all of our vehicles; and
- we will be required to raise additional capital to fund our operations, and such capital raising may be costly or difficult to obtain and could dilute our stockholders' ownership interests, and our long-term capital requirements are subject to numerous risks.

Corporate Information

We were incorporated in the State of Delaware on December 18, 1997 under the name "Internet International Communications Ltd." Pursuant to a Certificate of Amendment to our Certificate of Incorporation filed on December 23, 2004, our name was changed to "WPCS International Incorporated." On January 30, 2018, we completed a business combination with DropCar, Inc., a then privately held Delaware corporation ("Private DropCar"), in accordance with the terms of a merger agreement, pursuant to which a merger subsidiary merged with and into Private DropCar, with Private DropCar surviving as our wholly owned subsidiary (the "2018 Merger"). On January 30, 2018, immediately after completion of the 2018 Merger, we changed our name to "DropCar, Inc." The 2018 Merger was treated as a reverse merger under the acquisition method of accounting in accordance with U.S. GAAP. In May 2020, we completed the Merger and changed our name to "AYRO, Inc." Our principal corporate office is located at AYRO, Inc., 900 E. Old Settlers Boulevard, Suite 100, Round Rock, TX 78664, telephone 512-994-4917. Our internet address is <https://ayro.com/>. Our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and all amendments to those reports, are available to you free of charge through the "Investors" section of our web site as soon as reasonably practicable after such materials have been electronically filed with, or furnished to, the SEC. Information contained on our web site does not form a part of this prospectus.

Offerings Under This Prospectus

We may offer up to \$100,000,000 of common stock, preferred stock, warrants and/or units in one or more offerings and in any combination. This prospectus provides you with a general description of the securities we may offer. A prospectus supplement, which we will provide each time we offer securities, will describe the specific amounts, prices and terms of these securities.

Common Stock

We may issue shares of our common stock from time to time. The holders of common stock are entitled to one vote per share. Our certificate of incorporation does not provide for cumulative voting. All of our directors hold office for one-year terms until the election and qualification of their successors. The holders of our common stock are entitled to receive ratably such dividends, if any, as may be declared by the board of directors out of legally available funds. Upon liquidation, dissolution or winding-up, the holders of our common stock are entitled to share ratably in all assets that are legally available for distribution. The holders of our common stock have no preemptive, subscription, redemption or conversion rights. The rights, preferences and privileges of holders of our common stock are subject to, and may be adversely affected by, the rights of the holders of any series of preferred stock, which may be designated solely by action of the board of directors and issued in the future.

Preferred Stock

We may issue shares of our preferred stock from time to time, in one or more series. Our board of directors will determine the rights, preferences, privileges and restrictions of the preferred stock, including dividend rights, conversion rights, voting rights, terms of redemption, liquidation preferences, sinking fund terms and the number of shares constituting any series or the designation of such series, without any further vote or action by stockholders. Convertible preferred stock will be convertible into our common stock or exchangeable for our other securities. Conversion may be mandatory or at your option or both and would be at prescribed conversion rates.

If we sell any series of preferred stock under this prospectus and applicable prospectus supplements, we will fix the rights, preferences, privileges and restrictions of the preferred stock of such series in the certificate of designation relating to that series. We will file as an exhibit to the registration statement of which this prospectus is a part, or will incorporate by reference from reports that we file with the SEC, the form of any certificate of designation that describes the terms of the series of preferred stock we are offering before the issuance of the related series of preferred stock. We urge you to read the applicable prospectus supplement related to the series of preferred stock being offered, as well as the complete certificate of designation that contains the terms of the applicable series of preferred stock.

Warrants

We may issue warrants for the purchase of common stock or preferred stock in one or more series. We may issue warrants independently or together with common stock or preferred stock, and the warrants may be attached to or separate from these securities. We will evidence each series of warrants by warrant certificates that we will issue under a separate agreement. We may enter into warrant agreements with a bank or trust company that we select to be our warrant agent. We will indicate the name and address of the warrant agent in the applicable prospectus supplement relating to a particular series of warrants.

In this prospectus, we have summarized certain general features of the warrants. We urge you, however, to read the applicable prospectus supplement related to the particular series of warrants being offered, as well as the warrant agreements and warrant certificates that contain the terms of the warrants. We will file as exhibits to the registration statement of which this prospectus is a part, or will incorporate by reference from reports that we file with the SEC, the form of warrant agreement or warrant certificate containing the terms of the warrants we are offering before the issuance of the warrants.

Units

We may issue units consisting of common stock, preferred stock and/or warrants for the purchase of common stock or preferred stock in one or more series. In this prospectus, we have summarized certain general features of the units. We urge you, however, to read the applicable prospectus supplement related to the series of units being offered, as well as the unit agreements that contain the terms of the units. We will file as exhibits to the registration statement of which this prospectus is a part, or will incorporate by reference reports that we file with the SEC, the form of unit agreement and any supplemental agreements that describe the terms of the series of units we are offering before the issuance of the related series of units.

Offerings by the Selling Stockholders

In addition to the securities we may offer, the selling stockholders identified in this prospectus may offer and sell from time to time up to (i) 1,237,624 shares of our common stock underlying the Series A Warrants, (ii) 825,084 shares of our common stock underlying the Series B Warrants, (iii) 57,467 shares of our common stock underlying warrants issued to Palladium as part of Palladium's compensation for serving as our placement agent in connection with the November 2020 Offering, which have been transferred to Palladium Holdings, (iv) 56,256 shares of our common stock underlying warrants issued to Spartan as part of Spartan's compensation for serving as our placement agent in connection with the November 2020 Offering and (v) 94,044 shares of our common stock underlying warrants issued to Spartan as part of Spartan's compensation for serving as an introducing advisor in connection with a manufacturing agreement.

RISK FACTORS

An investment in our securities involves a high degree of risk. Before deciding whether to invest in our securities, you should consider carefully the specific factors discussed under the heading “Risk Factors” in the applicable prospectus supplement, together with all of the other information contained or incorporated by reference in the prospectus supplement or appearing or incorporated by reference in this prospectus. You should also consider the risks, uncertainties and assumptions discussed under Part II, Item 1A, “Risk Factors,” in our Quarterly Report on Form 10-Q for the quarter ended September 30, 2020, which is incorporated herein by reference, as updated or superseded by the risks and uncertainties described under similar headings in the other documents that are filed after the date hereof and incorporated by reference into this prospectus and any prospectus supplement related to a particular offering. The risks and uncertainties we have described are not the only ones we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also affect our operations. Past financial performance may not be a reliable indicator of future performance, and historical trends should not be used to anticipate results or trends in future periods. If any of these risks actually occurs, our business, business prospects, financial condition or results of operations could be seriously harmed. This could cause the trading price of our common stock to decline, resulting in a loss of all or part of your investment. Please also read carefully the section above entitled “Cautionary Statement Regarding Forward-Looking Statements.”

USE OF PROCEEDS

We cannot assure you that we will receive any proceeds in connection with securities which may be offered pursuant to this prospectus. Unless otherwise indicated in the applicable prospectus supplement, we intend to use any net proceeds from the sale of securities under this prospectus for our operations and for other general corporate purposes, including, but not limited to, general working capital and possible future acquisitions. We have not determined the amounts we plan to spend on any of the areas listed above or the timing of these expenditures. As a result, our management will have broad discretion to allocate the net proceeds, if any, we receive in connection with securities offered pursuant to this prospectus for any purpose. Pending application of the net proceeds as described above, we may initially invest the net proceeds in investment-grade, interest-bearing securities such as money market funds, certificates of deposit, or direct or guaranteed obligations of the U.S. government, hold as cash or apply them to the reduction of short-term indebtedness.

We will not receive any proceeds in connection with sales by any selling stockholder.

DESCRIPTION OF CAPITAL STOCK

The following description of common stock and preferred stock summarizes the material terms and provisions of the common stock and preferred stock that we may offer under this prospectus, but is not complete. For the complete terms of our common stock and preferred stock, please refer to our amended and restated certificate of incorporation, as amended, any certificates of designation for our preferred stock, and our amended and restated bylaws, as amended. While the terms we have summarized below will apply generally to any future common stock or preferred stock that we may offer, we will describe the specific terms of any series of preferred stock in more detail in the applicable prospectus supplement. If we so indicate in a prospectus supplement, the terms of any preferred stock we offer under that prospectus supplement may differ from the terms we describe below.

We have authorized 120,000,000 shares of capital stock, par value \$0.0001 per share, of which 100,000,000 are shares of common stock and 20,000,000 are shares of “blank check” preferred stock. On November 23, 2020, there were 27,022,132 shares of common stock, 8 shares of our Series H Convertible Preferred Stock, 2,189 shares of our Series H-3 Convertible Preferred Stock and 50 shares of our Series H-6 Convertible Preferred Stock issued and outstanding. As of such date, we had 3,272 shares of common stock reserved for issuance upon conversion of the outstanding shares of our convertible preferred stock. The authorized and unissued shares of common stock and the authorized and undesignated shares of preferred stock are available for issuance without further action by our stockholders, unless such action is required by applicable law or the rules of any stock exchange on which our securities may be listed. Unless approval of our stockholders is so required, our board of directors does not intend to seek stockholder approval for the issuance and sale of our common stock or preferred stock.

Common Stock

Holders of our common stock are entitled to one vote for each share held on all matters submitted to a vote of stockholders and do not have cumulative voting rights. Holders of the Company’s Series H-6 Convertible Preferred Stock are entitled to vote together with the holders of our common stock those shares of Series H-6 Convertible Preferred Stock, on an as-if converted to common stock basis, subject to certain beneficial ownership blockers. Each election of directors by our stockholders will be determined by a plurality of the votes cast by the stockholders entitled to vote on the election. Holders of common stock are entitled to receive proportionately any dividends as may be declared by our board of directors, subject to any preferential dividend rights of outstanding preferred stock.

In the event of the Company’s liquidation or dissolution, the holders of our common stock are entitled to receive proportionately all assets available for distribution to stockholders after the payment of all debts and other liabilities and subject to the prior rights of any of our outstanding preferred stock. Holders of our common stock have no preemptive, subscription, redemption or conversion rights. The rights, preferences and privileges of holders of our common stock are subject to and may be adversely affected by the rights of the holders of shares of any series of our preferred stock that we may designate and issue in the future.

The transfer agent and registrar for our common stock is Issuer Direct Corporation. The transfer agent’s address is One Glenwood Ave, Suite 1001, Raleigh, NC 27603. Our common stock is listed on The Nasdaq Capital Market under the symbol “AYRO.”

Preferred Stock

The board of directors is authorized, subject to any limitations prescribed by law, without further vote or action by the stockholders, to issue from time to time shares of preferred stock in one or more series. Each such series of preferred stock shall have such number of shares, designations, preferences, voting powers, qualifications, and special or relative rights or privileges as shall be determined by the board of directors, which may include, among others, dividend rights, voting rights, liquidation preferences, conversion rights and preemptive rights. Issuance of preferred stock by our board of directors may result in such shares having dividend and/or liquidation preferences senior to the rights of the holders of our common stock and could dilute the voting rights of the holders of our common stock.

Prior to the issuance of shares of each series of preferred stock, the board of directors is required by the Delaware General Corporation Law and our certificate of incorporation to adopt resolutions and file a certificate of designation with the Secretary of State of the State of Delaware. The certificate of designation fixes for each class or series the designations, powers, preferences, rights, qualifications, limitations and restrictions, including, but not limited to, some or all of the following:

- the number of shares constituting that series and the distinctive designation of that series, which number may be increased or decreased (but not below the number of shares then outstanding) from time to time by action of the board of directors;
- the dividend rate and the manner and frequency of payment of dividends on the shares of that series, whether dividends will be cumulative, and, if so, from which date;
- whether that series will have voting rights, in addition to any voting rights provided by law, and, if so, the terms of such voting rights;
- whether that series will have conversion privileges, and, if so, the terms and conditions of such conversion, including provision for adjustment of the conversion rate in such events as the board of directors may determine;
- whether or not the shares of that series will be redeemable, and, if so, the terms and conditions of such redemption;
- whether that series will have a sinking fund for the redemption or purchase of shares of that series, and, if so, the terms and amount of such sinking fund;
- whether or not the shares of the series will have priority over or be on a parity with or be junior to the shares of any other series or class in any respect;
- the rights of the shares of that series in the event of voluntary or involuntary liquidation, dissolution or winding up of the corporation, and the relative rights or priority, if any, of payment of shares of that series; and
- any other relative rights, preferences and limitations of that series.

Once designated by our board of directors, each series of preferred stock may have specific financial and other terms that will be described in a prospectus supplement. The description of the preferred stock that is set forth in any prospectus supplement is not complete without reference to the documents that govern the preferred stock. These include our certificate of incorporation and any certificates of designation that our board of directors may adopt.

All shares of preferred stock offered hereby will, when issued, be fully paid and nonassessable, including shares of preferred stock issued upon the exercise of preferred stock warrants or, if any.

Although our board of directors has no intention at the present time of doing so, it could authorize the issuance of a series of preferred stock that could, depending on the terms of such series, impede the completion of a merger, tender offer or other takeover attempt.

Anti-Takeover Effects of Certain Provisions of Delaware Law, our Certificate of Incorporation and Bylaws

Delaware Law

We are subject to Section 203 of the DGCL, which prohibits a publicly-held Delaware corporation from engaging in a business combination with an interested stockholder, generally a person which together with its affiliates owns, or within the last three years has owned, 15% of our voting stock, for a period of three (3) years after the date of the transaction in which the person became an interested stockholder, unless the business combination is approved in a prescribed manner. Subject to certain exceptions, Section 203 prevents a publicly held Delaware corporation from engaging in a “business combination” with any “interested stockholder” for three years following the date that the person became an interested stockholder, unless either the interested stockholder attained such status with the approval of our board of directors, the business combination is approved by our board of directors and stockholders in a prescribed manner or the interested stockholder acquired at least 85% of our outstanding voting stock in the transaction in which it became an interested stockholder. A “business combination” includes, among other things, a merger or consolidation involving the Company and the “interested stockholder” and the sale of more than 10% of the Company’s assets. In general, an “interested stockholder” is any entity or person beneficially owning 15% or more of our outstanding voting stock and any entity or person affiliated with or controlling or controlled by such entity or person. The restrictions contained in Section 203 are not applicable to any of the Company’s existing stockholders that owned 15% or more of DropCar’s outstanding voting stock upon the closing of DropCar’s initial public offering.

Potential Effects of Authorized but Unissued Stock

We have shares of common stock and preferred stock available for future issuance without stockholder approval. We may utilize these additional shares for a variety of corporate purposes, including future public offerings to raise additional capital, to facilitate corporate acquisitions or payment as a dividend on the capital stock.

The existence of unissued and unreserved common stock and preferred stock may enable our board of directors to issue shares to persons friendly to current management or to issue preferred stock with terms that could render more difficult or discourage a third-party attempt to obtain control of the Company by means of a merger, tender offer, proxy contest or otherwise, thereby protecting the continuity of the Company’s management. In addition, our board of directors has the discretion to determine designations, rights, preferences, privileges and restrictions, including voting rights, dividend rights, conversion rights, redemption privileges and liquidation preferences of each series of preferred stock, all to the fullest extent permissible under the DGCL and subject to any limitations set forth in our amended and restated certificate of incorporation, as amended. The purpose of authorizing our board of directors to issue preferred stock and to determine the rights and preferences applicable to such preferred stock is to eliminate delays associated with a stockholder vote on specific issuances. The issuance of preferred stock, while providing desirable flexibility in connection with possible financings, acquisitions and other corporate purposes, could have the effect of making it more difficult for a third-party to acquire, or could discourage a third-party from acquiring, a majority of the Company’s outstanding voting stock.

Limitations of Director Liability and Indemnification of Directors, Officers and Employees

Section 145 of the DGCL permits indemnification of directors, officers, agents and controlling persons of a corporation under certain conditions and subject to certain limitations. Section 145 empowers a corporation to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding whether civil, criminal, administrative or investigative, by reason of the fact that he or she is or was a director, officer or agent of the corporation or another enterprise if serving at the request of the Company. Depending on the character of the proceeding, a corporation may indemnify against expenses (including attorneys’ fees), judgments, fines and amounts paid in settlement actually and reasonably incurred in connection with such action, suit or proceeding if the person indemnified acted in good faith and in a manner he or she reasonably believed to be in or not opposed to, the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his or her conduct was unlawful. In the case of an action by or in the right of the corporation, no indemnification may be made with respect to any claim, issue or matter as to which such person shall have been adjudged to be liable to the corporation unless and only to the extent that the Court of Chancery or the court in which such action or suit was brought shall determine that despite the adjudication of liability such person is fairly and reasonably entitled to indemnity for such expenses which the court shall deem proper. Section 145 further provides that to the extent a present or former director or officer of a corporation has been successful in the defense of any action, suit or proceeding referred to above or in the defense of any claim, issue or matter therein, such person shall be indemnified against expenses (including attorneys’ fees) actually and reasonably incurred by such person in connection therewith.

DESCRIPTION OF WARRANTS

As of November 24, 2020, there were outstanding warrants to purchase 3,556,538 shares of common stock.

We may issue warrants for the purchase of common stock or preferred stock in one or more series. We may issue warrants independently or together with common stock or preferred stock, and the warrants may be attached to or separate from these securities.

We will evidence each series of warrants by warrant certificates that we may issue under a separate agreement. We may enter into a warrant agreement with a warrant agent. Each warrant agent may be a bank that we select which has its principal office in the United States. We may also choose to act as our own warrant agent. We will indicate the name and address of any such warrant agent in the applicable prospectus supplement relating to a particular series of warrants.

We will describe in the applicable prospectus supplement the terms of the series of warrants, including:

- the offering price and aggregate number of warrants offered;
- if applicable, the designation and terms of the securities with which the warrants are issued and the number of warrants issued with each such security or each principal amount of such security;
- if applicable, the date on and after which the warrants and the related securities will be separately transferable;
- in the case of warrants to purchase common stock or preferred stock, the number or amount of shares of common stock or preferred stock, as the case may be, purchasable upon the exercise of one warrant and the price at which and currency in which these shares may be purchased upon such exercise;
- the manner of exercise of the warrants, including any cashless exercise rights;
- the warrant agreement under which the warrants will be issued;
- the effect of any merger, consolidation, sale or other disposition of our business on the warrant agreement and the warrants;
- anti-dilution provisions of the warrants, if any;
- the terms of any rights to redeem or call the warrants;
- any provisions for changes to or adjustments in the exercise price or number of securities issuable upon exercise of the warrants;
- the dates on which the right to exercise the warrants will commence and expire or, if the warrants are not continuously exercisable during that period, the specific date or dates on which the warrants will be exercisable;
- the manner in which the warrant agreement and warrants may be modified;
- the identities of the warrant agent and any calculation or other agent for the warrants;
- federal income tax consequences of holding or exercising the warrants;
- the terms of the securities issuable upon exercise of the warrants;
- any securities exchange or quotation system on which the warrants or any securities deliverable upon exercise of the warrants may be listed or quoted; and
- any other specific terms, preferences, rights or limitations of or restrictions on the warrants.

Before exercising their warrants, holders of warrants will not have any of the rights of holders of the securities purchasable upon such exercise, including, in the case of warrants to purchase common stock or preferred stock, the right to receive dividends, if any, or, payments upon our liquidation, dissolution or winding up or to exercise voting rights, if any.

Exercise of Warrants

Each warrant will entitle the holder to purchase the securities that we specify in the applicable prospectus supplement at the exercise price that we describe in the applicable prospectus supplement. Unless we otherwise specify in the applicable prospectus supplement, holders of the warrants may exercise the warrants at any time up to 5:00 P.M. eastern time, the close of business, on the expiration date that we set forth in the applicable prospectus supplement. After the close of business on the expiration date, unexercised warrants will become void.

Holders of the warrants may exercise the warrants by delivering the warrant certificate representing the warrants to be exercised together with specified information, and paying the required exercise price by the methods provided in the applicable prospectus supplement. We will set forth on the reverse side of the warrant certificate, and in the applicable prospectus supplement, the information that the holder of the warrant will be required to deliver to the warrant agent.

Upon receipt of the required payment and the warrant certificate properly completed and duly executed at the corporate trust office of the warrant agent or any other office indicated in the applicable prospectus supplement, we will issue and deliver the securities purchasable upon such exercise. If fewer than all of the warrants represented by the warrant certificate are exercised, then we will issue a new warrant certificate for the remaining amount of warrants.

Enforceability of Rights by Holders of Warrants

Any warrant agent will act solely as our agent under the applicable warrant agreement and will not assume any obligation or relationship of agency or trust with any holder of any warrant. A single bank or trust company may act as warrant agent for more than one issue of warrants. A warrant agent will have no duty or responsibility in case of any default by us under the applicable warrant agreement or warrant, including any duty or responsibility to initiate any proceedings at law or otherwise, or to make any demand upon us. Any holder of a warrant may, without the consent of the related warrant agent or the holder of any other warrant, enforce by appropriate legal action the holder's right to exercise, and receive the securities purchasable upon exercise of, its warrants in accordance with their terms.

Warrant Agreement Will Not Be Qualified Under Trust Indenture Act

No warrant agreement will be qualified as an indenture, and no warrant agent will be required to qualify as a trustee, under the Trust Indenture Act of 1939. Therefore, holders of warrants issued under a warrant agreement will not have the protection of the Trust Indenture Act of 1939 with respect to their warrants.

Governing Law

Unless we provide otherwise in the applicable prospectus supplement, each warrant agreement and any warrants issued under the warrant agreements will be governed by New York law.

DESCRIPTION OF UNITS

We may issue units comprised of one or more of the other securities described in this prospectus or any prospectus supplement in any combination. Each unit will be issued so that the holder of the unit is also the holder, with the rights and obligations of a holder, of each security included in the unit. The unit agreement under which a unit is issued may provide that the securities included in the unit may not be held or transferred separately, at any time or at any times before a specified date or upon the occurrence of a specified event or occurrence.

The applicable prospectus supplement will describe:

- the designation and the terms of the units and of the securities comprising the units, including whether and under what circumstances those securities may be held or transferred separately;
- any unit agreement under which the units will be issued;
- any provisions for the issuance, payment, settlement, transfer or exchange of the units or of the securities comprising the units; and
- whether the units will be issued in fully registered or global form.

SELLING STOCKHOLDERS

Palladium Advisory Agreement

Pursuant to an engagement agreement (the “Palladium Advisory Agreement”), dated December 19, 2019, between AYRO Operating and Palladium, AYRO Operating engaged Palladium to (i) act as the non-exclusive placement agent in a private placement of, or similar unregistered transaction involving, equity or equity-linked securities of AYRO to a limited number of institutional, accredited individual or strategic investors, and (ii) serve as AYRO Operating’s non-exclusive advisor in connection with a merger. Palladium served as our advisor in connection with the Merger and the non-exclusive placement agent to AYRO Operating in connection with certain private placements in December 2019. In addition, pursuant to the Palladium Advisory Agreement, in June 2020 and July 2020, Palladium served as AYRO’s placement agent in connection with certain registered direct offerings.

Spartan Investment Banking Agreement

On March 6, 2020, AYRO Operating entered into an Investment Banking Agreement (the “Spartan Investment Banking Agreement”) with Spartan, pursuant to which AYRO Operating engaged Spartan to act as a non-exclusive financial advisor in connection with certain strategic investments in the Company. Pursuant to the Spartan Investment Banking Agreement, Spartan served as AYRO’s finder and financial advisor in connection with certain registered direct offerings in June 2020 and July 2020.

Karma Agreement

On September 25, 2020, we entered into the Karma Agreement, pursuant to which Karma agreed to provide certain manufacturing services for the production of our vehicles.

Pursuant to the Spartan Investment Banking Agreement, in connection with the closing of the Karma Agreement, we issued to Spartan a warrant to purchase an aggregate of 94,044 shares of our common stock at an exercise price of \$3.19 (which represents 110% of the offering price per share sold in this offering) for Spartan’s service as a non-exclusive financial advisor in connection with the Karma Agreement. Such warrant is exercisable immediately upon issuance and terminate five years following issuance.

November 2020 Registered Direct Offering and Concurrent Private Placement of the Series A Warrants and the Series B Warrants (the “November 2020 Offering”)

On November 22, 2020, we entered into a Securities Purchase Agreement with certain institutional and accredited investors, pursuant to which we agreed to issue and sell in a registered direct offering the November 2020 Shares. The November 2020 Shares were offered by us pursuant to a shelf registration statement on Form S-3 (File No. 333-227858), previously filed with the SEC on October 16, 2018, and declared effective by the SEC on November 9, 2018.

In a concurrent private placement, we agreed to issue to the investors purchasing the November 2020 Shares Series A Warrants to purchase up to 1,237,624 shares of our common stock and Series B Warrants to purchase up to 825,084 shares of our common stock. The Series A Warrants are exercisable immediately upon issuance and terminate six months following issuance and are exercisable at an exercise price of \$8.09 per share, subject to adjustment as set forth therein. The Series B Warrants are exercisable immediately upon issuance and terminate five years following issuance and are exercisable at an exercise price of \$8.90 per share, subject to adjustment as set forth therein.

Palladium and Spartan acted as placement agents in connection with the November 2020 Offering. We agreed to pay Palladium a fee equal to 8.0% of the gross proceeds raised in the offering from the sale of common stock to certain of the investors, or an aggregate of approximately \$400,000, and a warrant to purchase 57,467 shares of our common stock (which equals 7% of the aggregate number of shares sold in this offering to investors introduced to us by Palladium) at an exercise price of \$6.969 per share (which represents 115% of the offering price per share sold in this offering), which Palladium transferred to Palladium Holdings. Pursuant to the Spartan Investment Banking Agreement, Spartan is entitled to a fee equal to 7.5% of the gross proceeds raised in the offering from the sale of common stock to certain of the investors, or an aggregate fee of approximately \$375,000, and a warrant to purchase 56,256 shares of our common stock (which represents a number of shares equal to 7.5% of the gross proceeds raised in this offering to investors introduced to us by Spartan divided by 110% of the purchase price per share sold in this offering) at an exercise price of \$6.666 per share (which represents 110% of the offering price per share sold in this offering).

Relationships with the Selling Stockholders

Each of CHR Structured Capital, LLC (“CHR”), Alpha Capital Anstalt, Iroquois Capital Investment Group LLC, Iroquois Master Fund Ltd., Brio Capital Master Fund, Ltd., Ellis International LP and Richard Molinsky purchased securities in the November 2020 Offering. Each of the foregoing investors other than CHR has participated in one or more of our financings. CHR is an affiliate of Karma, which is a party to the Karma Agreement.

Except with respect to the foregoing, none of the selling stockholders has, or within the past three years has had, any position, office or other material relationship with us.

Information About Selling Stockholder Offering

The following table sets forth the number and percentage of our common stock beneficially owned by the selling stockholders as of November 23, 2020, and assumes exercise of the Series A Warrants, Series B Warrants as well as the warrants issued to Palladium and Spartan in respect of the November 2020 Offering and the Karma Agreement, if any, held by such selling stockholders on that date in full for cash, without regard to any limitations on exercises; and thus, the Warrant Shares are deemed to be outstanding and to be beneficially owned by the selling stockholders holding the Series A Warrants and Series B Warrants, but are not treated as outstanding for the purpose of computing the percentage ownership of any other selling stockholders.

Under the terms of the Series A Warrants and Series B Warrants, a selling stockholder may not exercise Warrants to the extent that such selling stockholder, together with its affiliates, would beneficially own, after such exercise more than 4.99% of the shares of common stock then outstanding (subject to the right of the selling stockholders to increase or decrease such beneficial ownership limitation upon notice to us, provided that such limitation cannot exceed 9.99%) and provided that any increase in the beneficial ownership limitation shall not be effective until 61 days after such notice is delivered. The number of shares does not reflect this limitation.

The percentage of shares owned after the offering is based on 27,022,132 shares of common stock outstanding as of November 23, 2020. Unless otherwise indicated in the footnotes to this table, we believe that the selling stockholders have sole voting and investment power with respect to the shares of common stock indicated as beneficially owned.

As used in this prospectus, the term “selling stockholders” includes the selling stockholders set forth below and any donees, pledgees, transferees or other successors-in-interest selling shares of common stock received after the date of this prospectus from the selling stockholders as a gift, pledge, or other non-sale related transfer.

The third and fourth column in the table below assume the sale of all of the shares offered by each selling stockholder pursuant to this prospectus and that the selling stockholder does not acquire any additional shares of common stock before the completion of this offering. However, because the selling stockholders may sell all or some of its shares under this prospectus from time to time, or in another permitted manner, we cannot assure you as to the actual number of shares that will be sold by the selling stockholders or that will be held by the selling stockholders after completion of any sales. The selling stockholders may sell some, all or none of their shares in this offering. We do not know how long the selling stockholders will hold the shares before selling them, and we currently have no agreements, arrangements or understandings with the selling stockholders regarding the sale of any of the shares.

Selling Stockholders	Ownership Before Offering		Ownership After Offering	
	Number of shares of common stock owned	Maximum Number of shares offered	Number of shares of common stock owned	Percentage of common stock owned

(1) Richard Abbe has the sole authority and responsibility for the investments made on behalf of Iroquois Capital Investment Group LLC (“ICIG”) as its managing member and shares authority and responsibility for the investments made on behalf of Iroquois Master Fund Ltd. (the “Fund”) with Kimberly Page, each of whom is a director of the Fund. As such, Mr. Abbe may be deemed to be the beneficial owner of all shares of common stock held by and underlying the Warrants (subject to the beneficial ownership blockers) held by, the Fund and ICIG. Each of the Iroquois Funds and the selling stockholders disclaims any beneficial ownership of any such shares of common stock, except to the extent of their pecuniary interest therein. The selling stockholder’s address is 125 Park Ave., 25th Fl. NY, NY 10017.

(2) Includes 202,062 shares of common stock issuable upon the exercise of certain warrants and 1,868 shares of common stock issuable upon the conversion of preferred stock.

(3) Includes 107,054 shares of common stock issuable upon exercise of the Series A Warrants and 71,370 shares of common stock issuable upon exercise of the Series B Warrants.

(4) Includes 158,766 shares of common stock issuable upon the exercise of certain warrants and 963 shares of common stock issuable upon the conversion of preferred stock.

(5) Includes 159,035 shares of common stock issuable upon exercise of the Series A Warrants and 106,023 shares of common stock issuable upon exercise of the Series B Warrants.

(6) Nicola Feuerstein has sole voting and dispositive power over the securities held for the account of this selling stockholder. The selling stockholder’s address is Lettstrasse 32, 9490 Vaduz, Principality of Liechtenstein.

(7) Includes 27,577 shares of common stock issuable upon the exercise of certain warrants.

(8) Includes 266,089 shares of common stock issuable upon exercise of the Series A Warrants and 177,393 shares of common stock issuable upon exercise of the Series B Warrants.

(9) Shaye Hirsch has sole voting and dispositive power over the securities held for the account of this selling stockholder. This selling stockholder’s address is 100 Merrick Rd., Suite 401W, Rockville Centre, NY 11570.

(10) Includes 4,117 shares of common stock issuable upon the exercise of certain warrants and 955 shares of common stock issuable upon the conversion of preferred stock.

(11) Includes 41,770 shares of common stock issuable upon exercise of the Series A Warrants and 27,847 shares of common stock issuable upon exercise of the Series B Warrants.

(12) Martin Chopp has sole voting and dispositive power over the securities held for the account of this selling stockholder. This selling stockholder’s address is 100 Merrick Rd., Ste. 400W, Rockville Centre, NY 11570.

(13) Includes 41,770 shares of common stock issuable upon exercise of the Series A Warrants and 27,847 shares of common stock issuable upon exercise of the Series B Warrants.

(14) Charles Gassenheimer has sole voting and dispositive power over the securities held for the account of this selling stockholder. This selling stockholder’s address is 152 W. 57th St., 52nd Floor, New York, NY 10019.

(15) Includes 618,812 shares of common stock issuable upon exercise of the Series A Warrants and 412,542 shares of common stock issuable upon exercise of the Series B Warrants.

(16) Includes 3,094 shares of common stock issuable upon exercise of the Series A Warrants and 2,062 shares of common stock issuable upon exercise of the Series B Warrants.

(17) Joel Padowitz has sole voting and dispositive power over the securities held for the account of this selling stockholder. The selling stockholder’s address is 10 Rockefeller Plaza, #909, New York, NY 10020.

(18) Includes 276,868 shares of common stock issuable upon the exercise of certain warrants.

(19) Includes 57,467 shares of common stock issuable upon the exercise of warrants that were issued to Palladium as part of Palladium’s compensation for serving as our placement agent in connection with the November 2020 Offering, and which have been transferred to Palladium Holdings.

(20) John D. Lowry has sole voting and dispositive power over the securities held for the account of this selling stockholder. The selling stockholder’s address is 45 Broadway, 19th Floor, New York NY 10006.

(21) Includes 32,982 shares of common stock issuable upon the exercise of certain warrants.

(22) Includes (i) 56,256 shares of our common stock underlying warrants issued to Spartan as part of Spartan’s compensation for serving as our placement agent in connection with the November 2020 Offering and (ii) 94,044 shares of our common stock underlying warrants issued to Spartan as part of Spartan’s compensation for serving as an introducing advisor in connection with the Karma Agreement.

PLAN OF DISTRIBUTION

We may sell the securities offered pursuant to this prospectus from time to time in one or more transactions, including, without limitation:

- to or through underwriters;
- through broker-dealers (acting as agent or principal);
- through agents;
- directly by us to one or more purchasers (including our affiliates and stockholders), through a specific bidding or auction process, a rights offering or otherwise;
- through a combination of any such methods of sale; or
- through any other methods described in a prospectus supplement or free writing prospectus.

The distribution of securities may be effected, from time to time, in one or more transactions, including:

- block transactions (which may involve crosses) and transactions on The Nasdaq Capital Market or any other organized market where the securities may be traded;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its own account pursuant to a prospectus supplement or free writing prospectus;
- ordinary brokerage transactions and transactions in which a broker-dealer solicits purchasers;
- sales “at the market” to or through a market maker or into an existing trading market, on an exchange or otherwise; and
- sales in other ways not involving market makers or established trading markets, including direct sales to purchasers.

The applicable prospectus supplement or free writing prospectus will describe the terms of the offering of the securities, including:

- the name or names of any underwriters, if, and if required, any dealers or agents;
- the purchase price of the securities and the proceeds we will receive from the sale;
- any underwriting discounts and other items constituting underwriters’ compensation;
- any discounts or concessions allowed or re-allowed or paid to dealers; and
- any securities exchange or market on which the securities may be listed or traded.

We may distribute the securities from time to time in one or more transactions at:

- a fixed price or prices, which may be changed;
- market prices prevailing at the time of sale;
- prices related to such prevailing market prices; or
- negotiated prices.

Only underwriters named in the prospectus supplement are underwriters of the securities offered by the prospectus supplement.

If underwriters are used in an offering, we will execute an underwriting agreement with such underwriters and will specify the name of each underwriter and the terms of the transaction (including any underwriting discounts and other terms constituting compensation of the underwriters and any dealers) in a prospectus supplement. The securities may be offered to the public either through underwriting syndicates represented by managing underwriters or directly by one or more investment banking firms or others, as designated. If an underwriting syndicate is used, the managing underwriter(s) will be specified on the cover of the prospectus supplement. If underwriters are used in the sale, the offered securities will be acquired by the underwriters for their own accounts and may be resold from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. Any public offering price and any discounts or concessions allowed or reallocated or paid to dealers may be changed from time to time. Unless otherwise set forth in the prospectus supplement, the obligations of the underwriters to purchase the offered securities will be subject to conditions precedent, and the underwriters will be obligated to purchase all of the offered securities, if any are purchased.

We may grant to the underwriters options to purchase additional securities to cover over-allotments, if any, at the public offering price, with additional underwriting commissions or discounts, as may be set forth in a related prospectus supplement. The terms of any over-allotment option will be set forth in the prospectus supplement for those securities.

If we use a dealer in the sale of the securities being offered pursuant to this prospectus or any prospectus supplement, we will sell the securities to the dealer, as principal. The dealer may then resell the securities to the public at varying prices to be determined by the dealer at the time of resale. The names of the dealers and the terms of the transaction will be specified in a prospectus supplement.

We may sell the securities directly or through agents we designate from time to time. We will name any agent involved in the offering and sale of securities and we will describe any commissions we will pay the agent in the prospectus supplement. Unless the prospectus supplement states otherwise, any agent will act on a best-efforts basis for the period of its appointment.

We may authorize agents or underwriters to solicit offers by institutional investors to purchase securities from us at the public offering price set forth in the prospectus supplement pursuant to delayed delivery contracts providing for payment and delivery on a specified date in the future. We will describe the conditions to these contracts and the commissions we must pay for solicitation of these contracts in the prospectus supplement.

In connection with the sale of the securities, underwriters, dealers or agents may receive compensation from us or from purchasers of the securities for whom they act as agents, in the form of discounts, concessions or commissions. Underwriters may sell the securities to or through dealers, and those dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters or commissions from the purchasers for whom they may act as agents. Underwriters, dealers and agents that participate in the distribution of the securities, and any institutional investors or others that purchase securities directly for the purpose of resale or distribution, may be deemed to be underwriters, and any discounts or commissions received by them from us and any profit on the resale of the common stock by them may be deemed to be underwriting discounts and commissions under the Securities Act of 1933, as amended.

We may provide agents, underwriters and other purchasers with indemnification against particular civil liabilities, including liabilities under the Securities Act of 1933, as amended, or contribution with respect to payments that the agents, underwriters or other purchasers may make with respect to such liabilities. Agents and underwriters may engage in transactions with, or perform services for, us in the ordinary course of business.

To facilitate the public offering of a series of securities, persons participating in the offering may engage in transactions that stabilize, maintain, or otherwise affect the market price of the securities. This may include over-allotments or short sales of the securities, which involves the sale by persons participating in the offering of more securities than have been sold to them by us. In addition, those persons may stabilize or maintain the price of the securities by bidding for or purchasing securities in the open market or by imposing penalty bids, whereby selling concessions allowed to underwriters or dealers participating in any such offering may be reclaimed if securities sold by them are repurchased in connection with stabilization transactions. The effect of these transactions may be to stabilize or maintain the market price of the securities at a level above that which might otherwise prevail in the open market. Such transactions, if commenced, may be discontinued at any time. We make no representation or prediction as to the direction or magnitude of any effect that the transactions described above, if implemented, may have on the price of our securities.

Unless otherwise specified in the applicable prospectus supplement, any common stock sold pursuant to a prospectus supplement will be eligible for listing on The Nasdaq Capital Market, subject to official notice of issuance. Any underwriters to whom securities are sold by us for public offering and sale may make a market in the securities, but such underwriters will not be obligated to do so and may discontinue any market making at any time without notice.

In order to comply with the securities laws of some states, if applicable, the securities offered pursuant to this prospectus will be sold in those states only through registered or licensed brokers or dealers. In addition, in some states securities may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and complied with.

LEGAL MATTERS

The validity of the securities offered by this prospectus will be passed upon for us by Haynes and Boone, LLP, New York, New York.

EXPERTS

The consolidated financial statements of DropCar, Inc. as of and for the year ended December 31, 2019, incorporated by reference in this Registration Statement has been so included in reliance on the report of Friedman LLP, an independent registered public accounting firm, (such report includes an explanatory paragraph regarding the Company's ability to continue as a going concern), given on the authority of said firm as experts in auditing and accounting.

The consolidated balance sheet of DropCar, Inc. and Subsidiaries as of December 31, 2018, and the related consolidated statements of operations, stockholders' equity, and cash flows for the year then ended have been audited by EisnerAmper LLP, independent registered public accounting firm, as stated in their report which is incorporated herein, and includes an explanatory paragraph about the existence of substantial doubt concerning the Company's ability to continue as a going concern. Such financial statements have been incorporated herein in reliance on the report of such firm given upon their authority as experts in accounting and auditing.

The balance sheets of AYRO, Inc. as of December 31, 2019 and 2018 and the related statements of income, comprehensive income, stockholders' equity, and cash flows for the years then ended, have been audited by Plante & Moran, PLLC, independent registered public accounting firm, as stated in their report, which is incorporated herein by reference. Such financial statements have been included herein in reliance on the report of such firm given upon their authority as experts in accounting and auditing.

WHERE YOU CAN FIND MORE INFORMATION

We are subject to the informational requirements of the Exchange Act, and in accordance therewith file annual, quarterly and current reports, proxy statements and other information with the SEC. The SEC maintains an internet website at www.sec.gov that contains periodic and current reports, proxy and information statements and other information regarding registrants that are filed electronically with the SEC.

These documents are also available, free of charge, through the Investors section of our website, which is located at <https://ayro.com/>.

We have filed with the SEC a registration statement under the Securities Act of 1933, as amended, relating to the offering of these securities. The registration statement, including the attached exhibits, contains additional relevant information about us and the securities. This prospectus does not contain all of the information set forth in the registration statement. You can obtain a copy of the registration statement for free at www.sec.gov. The registration statement and the documents referred to below under "Incorporation of Documents by Reference" are also available on our website, <https://ayro.com/>.

We have not incorporated by reference into this prospectus the information on our website, and you should not consider it to be a part of this prospectus.

INCORPORATION OF DOCUMENTS BY REFERENCE

The SEC allows us to “incorporate by reference” the information we have filed with it, which means that we can disclose important information to you by referring you to those documents. The information we incorporate by reference is an important part of this prospectus, and later information that we file with the SEC will automatically update and supersede this information. We specifically are incorporating by reference the following documents filed with the SEC (excluding those portions of any Current Report on Form 8-K that are furnished and not deemed “filed” pursuant to the General Instructions of Form 8-K):

- our Annual Report on Form 10-K for the year ended December 31, 2019, filed with the SEC on [March 30, 2020](#), as amended by our Annual Report on Form 10-K/A, filed with the SEC on [April 10, 2020](#);
- the portions of our Definitive Proxy Statement on Schedule 14A filed with the SEC on [November 9, 2020](#) that are deemed “filed” with the SEC;
- our Quarterly Report on Form 10-Q for the quarter ended March 31, 2020, filed with the SEC on [May 14, 2020](#), our Quarterly Report on Form 10-Q for the quarter ended June 30, 2020, filed with the SEC on [August 14, 2020](#), and our Quarterly Report on Form 10-Q for the quarter ended September 30, 2020, filed with the SEC on [November 6, 2020](#);
- our Current Reports on Form 8-K filed with the SEC on [February 5, 2020](#), [February 7, 2020](#) (and as amended on [February 14, 2020](#)), [February 24, 2020](#), [March 6, 2020](#), [May 15, 2020](#), [May 19, 2020](#), [May 26, 2020](#), [May 28, 2020](#), [May 29, 2020](#) (and as amended on [June 3, 2020](#)), [June 19, 2020](#), [July 8, 2020](#), [July 23, 2020](#), [September 29, 2020](#), [October 1, 2020](#), [October 16, 2020](#), and [November 23, 2020](#);
- the following sections from our Registration Statement on Form S-4 filed with the SEC on [February 14, 2020](#), as amended on [April 24, 2020](#) (the “Form S-4”): “[Management of the Combined Company](#),” “[Information About AYRO](#),” and “[Information About DropCar—Legal Proceedings](#),” and
- the description of our common stock contained in the “[Description of DropCar Capital Stock](#)” in the Form S-4.

All reports and definitive proxy or information statements subsequently filed after the date of this initial registration statement and prior to effectiveness of this registration statement by the Company pursuant to Sections 13(a), 13(c), 14 and 15(d) of the Exchange Act, but excluding information furnished to, rather than filed with, the SEC, shall be deemed to be incorporated by reference herein and to be a part hereof from the date such documents are filed.

Any statement contained herein or in any document incorporated or deemed to be incorporated by reference shall be deemed to be modified or superseded for purposes of the registration statement of which this prospectus forms a part to the extent that a statement contained in any other subsequently filed document which also is or is deemed to be incorporated by reference modifies or supersedes such statement. Any such statement so modified or superseded shall not be deemed to constitute a part of the registration statement of which this prospectus forms a part, except as so modified or superseded.

You should rely only on the information incorporated by reference or provided in this prospectus. We have not authorized anyone else to provide you with different information. You should not assume that the information in this prospectus is accurate as of any date other than the date of this prospectus or the date of the documents incorporated by reference in this prospectus.

We will provide without charge to each person to whom a copy of this prospectus is delivered, upon written or oral request, a copy of any or all of the information that has been incorporated by reference in this prospectus but not delivered with this prospectus (other than an exhibit to these filings, unless we have specifically incorporated that exhibit by reference in this prospectus). Any such request should be addressed to us at:

AYRO, Inc.
Attn: Curtis Smith
900 E. Old Settlers Boulevard, Suite 100
Round Rock, Texas 78664
512-994-4917

You may also access the documents incorporated by reference in this prospectus through our website at <https://ayro.com/>. Except for the specific incorporated documents listed above, no information available on or through our website shall be deemed to be incorporated in this prospectus or the registration statement of which it forms a part.
